Full product description

Aqara Switch Frame H2 EU (3-Gang) Gray - Elegance and functionality in one.

Aqara Switch Frame H2 EU (3-Gang) Gray is a component that makes it easy to install switches in your smart home. With this frame, you can install **three Aqara switches** that will work with the popular **Google Home, Apple HomeKit and Alexa** systems . This provides convenience and control over all the devices in your home, allowing you to easily manage them via apps and voice.

Convenient installation and use

Installation of the frame is quick and easy, as it fits standard 55mm diameter mounting boxes. With the ability to mount three switches, the user has full control over several devices at the same time. The installation process does not require advanced technical knowledge, making it accessible to anyone.

High quality workmanship and aesthetics

The frame in gray, with a subtle and simple design, fits many different interior styles. The Aqara Switch Frame H2 EU (3-Gang) is made of **high-quality materials**, ensuring its durability and resistance to damage. Its minimalist design makes it a perfect match for modern spaces, providing an elegant finishing touch.
