Price: **169.00 zł** gross / 137.40 zł net

Aqara

Manufacturer: AQARA

Referention number: DNXXGGMNLGRMMJL

Product features

Height	86 mm
Width	86 mm
Depth	47.7 mm
Rated current	16 A
Rated frequency	50 Hz
Number of slots	1
Socket type	Type F
Humidity measurement range	0 - 95%
Quick start guide	Yes
Operating temperature (T-T)	-10 - 40 °C
Rated voltage	250 V
Product colour	White

Full product description

Intelligent Energy Control and Monitoring

Aqara Wall Outlet H2 EU is a state-of-the-art energy management solution for your home. **It supports devices up to 16 Amps**, allowing you to intelligently control and monitor energy consumption. This allows you to effectively control your electricity bills by automating power settings and transforming traditional appliances into more efficient and convenient tools.

Compatibility and Integration with the Smart Home

The Aqara Wall Outlet H2 acts as a Zigbee router and is compatible with major platforms such as **HomeKit, Alexa, Google Home and Matter over Bridge**. This makes it a unique choice among smart outlets. This versatility expands the possibilities of home automation, giving the user **more control and flexibility**.

Easy Installation and Aesthetics

The **Aqara H2 recept** acle is compatible with **55mm wall plates**, allowing for easy and economical integration into your home. The hassle-free installation maintains interior aesthetics while simplifying the transition to smart technology. It is the ideal choice for those looking for a stress-free home automation solution.

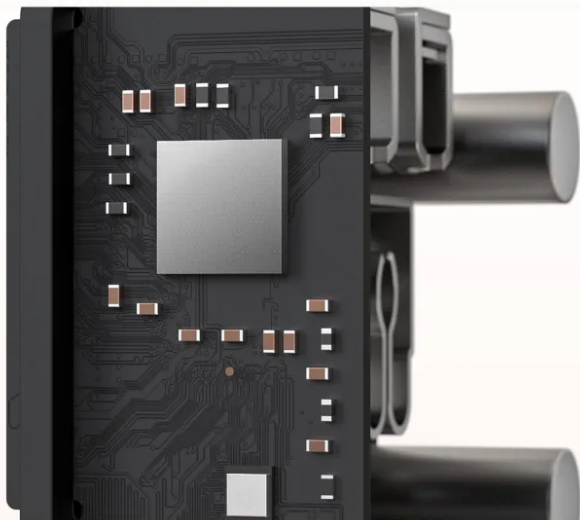

Savings and Security

With its **power consumption monitoring function**, the Aqara Wall Outlet H2 helps save on electricity bills. **Supporting high-power devices up to 16A**, it provides safe connection and control of larger home appliances. **Automatic power shutdown** prevents overheating and electrical failures, and **charge protection** safeguards appliances from overcharging batteries, ensuring safe charging throughout the night.

Comfort and Convenience

Aqara Wall Outlet H2 offers maximum control and convenience. You can enjoy instant push-button access, **remote control via app or voice**, and **smart scheduling** for greater energy efficiency. **LED settings** provide optimal visibility and **a power status memory function** ensures that your devices will return to their last state after an outage.

The perfect choice for any smart home

Aqara Wall Outlet H2 is a smart electrical outlet that not only **makes everyday life easier**, but also **takes care of safety and energy savings**. Its versatility, ease of installation and multi-platform compatibility make it an excellent choice for any modern home. **Transform your traditional appliances into smart** and convenient tools without having to replace them by choosing Aqara Wall Outlet H2.
