Full product description

Arcon R5 surge protection power strip - reliable protection for your equipment!

Ensure the **safety** and stability of your devices with the Arcon R5 power strip. Equipped with **5 outlets**, a 5-meter cable and **an anti-voltage surge protection system**, it meets the highest quality standards. It is an ideal choice for both the office and home, guaranteeing protection of your equipment from unexpected surges and power failures.

Effective protection against surges

Arcon R5 surge power strip is designed to protect your electrical equipment from sudden power surges. Thanks to **the anti-voltage surge system** used, your equipment is protected from damage caused by power surges. This is an indispensable solution that ensures **safety** even in the event of a power grid failure.
