Full product description

Colorful Brilliance for Your Christmas

Extralink LED 500L Multicolor Christmas Tree Lights are the perfect solution to bring plenty of color and life to your home, garden, balcony or terrace. With a length of **up to 28 meters and 500 LEDs** in a variety of colors, these Christmas tree lights are the perfect way to light up any space. The product is durable, easy to install and weatherproof, making it a great choice for any occasion.

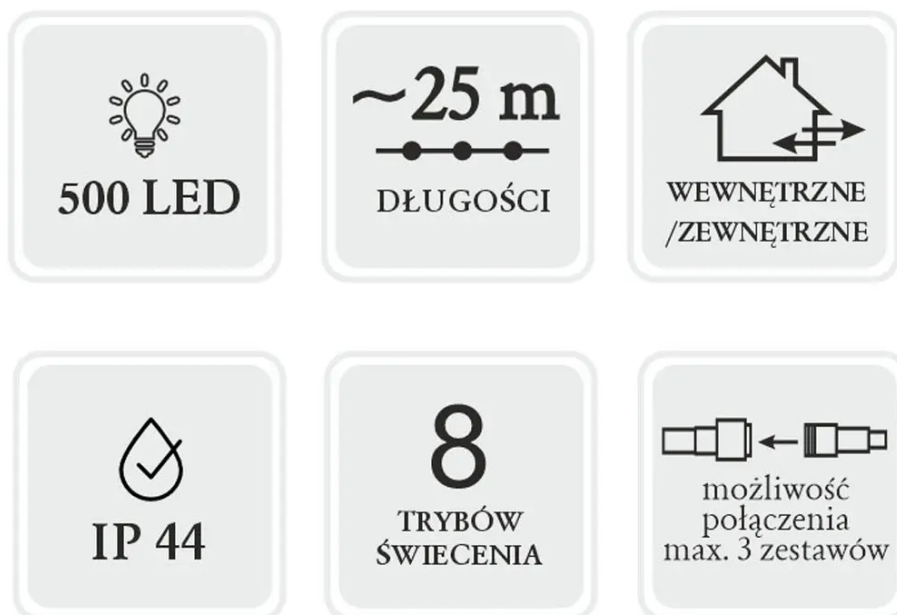

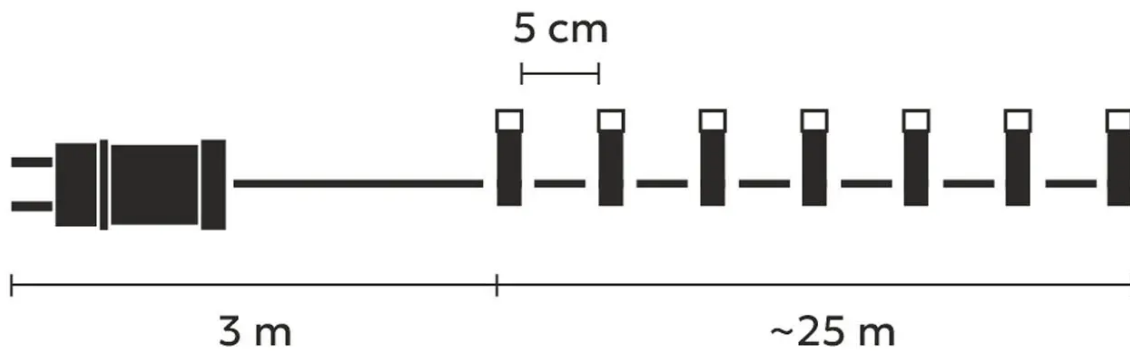

Long and Functional Light Installation.

Extralink LED Lamps 500L has a total length of 28 meters, of which 25 meters is the light part, which allows you to decorate large spaces, both indoors and outdoors. The **500 LEDs**, spaced every 5 cm, provide dense and even illumination, making any decoration look phenomenal. **Multicolored LEDs** enliven any environment, creating a joyful and dynamic atmosphere that is perfect for holiday decorations.

Resistance to Outdoor Conditions

The lights are designed for both indoor and outdoor use - they are **IP44-rated**, which means they are resistant to moisture and adverse weather conditions. **The green wire** blends in with the surroundings, making the lights unobtrusive during the day, and the **black transformer** ensures robust operation. This is the ideal outdoor lighting - suitable for decorating facades, terraces, gardens or balconies, guaranteeing reliability regardless of the weather.

Possibility of Decoration Expansion

The lights are equipped with male and female connectors that allow you to connect **up to 3 light chains**, so you can easily expand your installation. **The 3-meter power cord** gives you a lot of flexibility, allowing installation even in hard-to-reach places. This is a practical solution that allows you to customize your decorations to create more elaborate and impressive arrangements.
