Information:

The Bebird Ent Kit tip set is a practical accessory for otoscopes and care devices that increases comfort, precision and effectiveness in daily ear hygiene. The various tips make it easier to adapt the tool to different applications, and replacing them is quick and simple. The set fits many Bebird models, including X1, X3, New R1, R3, T15, Q3, M9s and P30, providing greater versatility and ease of use. An ideal choice for those who value safe, thorough and comfortable care.

Full product description

Safe and Precise Ear Cleaning with Live Viewing

Meet Bebird Note5 - an otoscope that takes ear hygiene to a whole new level. With a **high-resolution 10MP camera, smart gyroscope and waterproof design**, ear cleaning becomes safe, precise and comfortable like never before.

Clean Ears, Healthy Hearing - 10MP Camera for Perfect Images

The Bebird Note5 is equipped with **a camera with a resolution of as much as 10 megapixels**, guaranteeing crystal clear images of the inside of your ear. **With a diameter of just 3.2 mm, the lens** easily reaches even hard-to-reach areas, minimizing the risk of irritation. Now you can see exactly what's going on inside your ear and effectively remove any debris.

Stable Image, Precise Cleaning - Intelligent Gyroscope

Thanks to the built-in intelligent gyroscope, **the camera image is stable** even during delicate hand movements. No more shaky images and difficulties in precise cleaning! The Bebird Note5 provides **a smooth real-time view** so you can maneuver the tool accurately and safely.
