bebird

Manufacturer: BEBIRD

Referention number: DNXXGONSHRMNHI

Information:

Bebird M9S is a modern otoscope with an HD 1080P camera and a 10 MP sensor, enabling safe, precise ear cleaning with live viewing in the Android and iOS app. Six LED lights and a 4-axis gyroscope ensure excellent visibility and a stable image, while the narrow 3.5 mm tip increases comfort even for narrow ear canals. Gentle stainless steel and silicone tips help hygienically remove earwax. The device runs for up to 90 minutes, charges via USB-C, has IP67 water resistance, and is also suitable for examining the nose, throat, or teeth.

Full product description

Your ears under control. Safe and effective cleaning with the Bebird M9S

Have you ever wondered what goes on inside your ears during cleaning? With the **Bebird M9S Otoscope**, you can forget the guesswork and uncertainty. **The HD camera otoscope** takes ear care to a whole new level, giving you complete control and confidence. Image precision for safe care

With a built-in **10 MP** camera **and 1080P HD image quality**, the Bebird M9S Otoscope provides **exceptionally clear and detailed images** of the inside of your ear. Forget about unsteady movements and potential damage to delicate structures. Now, with a **live view** on your smartphone's screen, you can easily locate earwax and effectively remove it with full control over every movement. **Six built-in LEDs** perfectly illuminate the ear canal, eliminating shadows and providing optimal visibility even in hard-to-reach areas.

Comfort and safety for every ear

The Bebird M9S is designed with your comfort and safety in mind. The narrow **diameter of the endoscope (just 3.5 mm)** makes the device suitable even for people with narrow ear canals, minimizing the risk of irritation. **The cleaning tips**, made of high-quality stainless steel and coated with soft silicone, guarantee gentle and hygienic wax removal. You can rest assured that ear cleaning with the Bebird M9S is not only **effective**, but above all **safe**.

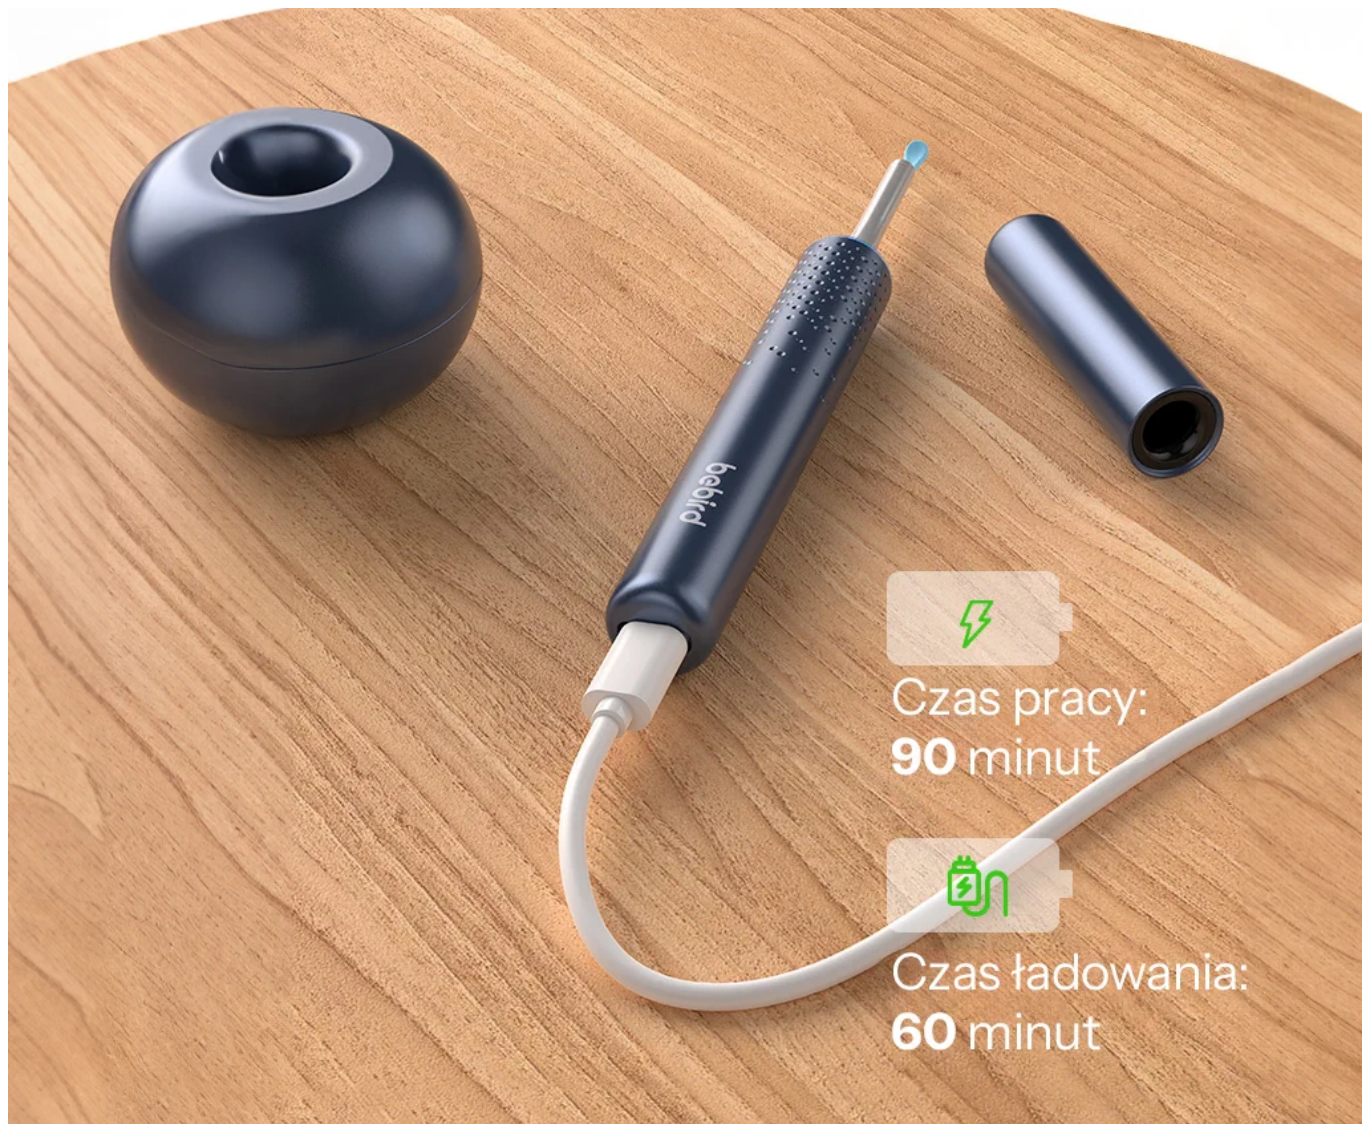

Intuitive operation and full control

Ease of use is another advantage of the Bebird M9S Otoscope. **The dedicated Bebird app**, available for **Android and iOS**, is intuitive and easy to navigate. You'll quickly and seamlessly connect to the device and start cleaning your ears safely. **The 4-axis gyroscope** provides a stable and smooth image, even during delicate movements, which is crucial for precise maneuvering inside the ear.

Long-lasting operation and universal charging

Enjoy the device's long runtime thanks to its powerful battery. The Bebird M9S otoscope allows for **about 90 minutes of continuous use** on a single charge, enough even for comprehensive ear care for the whole family. Convenient **USB-C charging** makes charging fast and versatile, and you'll always be ready to go.

Multifunctionality in home care

Discover the multifunctionality of the Bebird M9S. It's not just an otoscope for ears! With its precise camera and convenient design, you can also use it to **examine your nose, throat and even teeth**. One device, multiple uses - Bebird M9S is a **comprehensive solution** for your home care.

Thoughtful design and rich equipment

The Bebird M9S is a product that is refined in every detail. **The magnetic cover** makes it easy to store and maintain hygiene, and the base of the device serves as a practical **tip storage compartment**. You'll find **a wide selection of interchangeable ear tips** and swabs, ensuring maximum hygiene and customization. In addition, the **IP67 waterproof** rating makes the device safer to use and easier to clean. The design of the Bebird M9S has been recognized with the prestigious **Red Dot Award**, a testament to its outstanding aesthetics and functionality.
