Manufacturer: BEBIRD

Referention number: DNXXGHILLHRMMHH

Information:

Bebird Note5 Pro is a modern ear-cleaning otoscope with a 10 MP camera and a 3.2 mm endoscopic head, allowing you to observe the inside of the ear on a smartphone screen in real time. The wireless Wi-Fi connection and the Bebird app for Android and iOS ensure convenient operation, while the gyroscope stabilises the image. 6 LED diodes improve visibility, intelligent temperature control increases comfort and safety, and the 230 mAh battery provides up to one hour of use after just 1 hour of charging. The dust- and scratch-resistant housing increases the device's durability.

Full product description

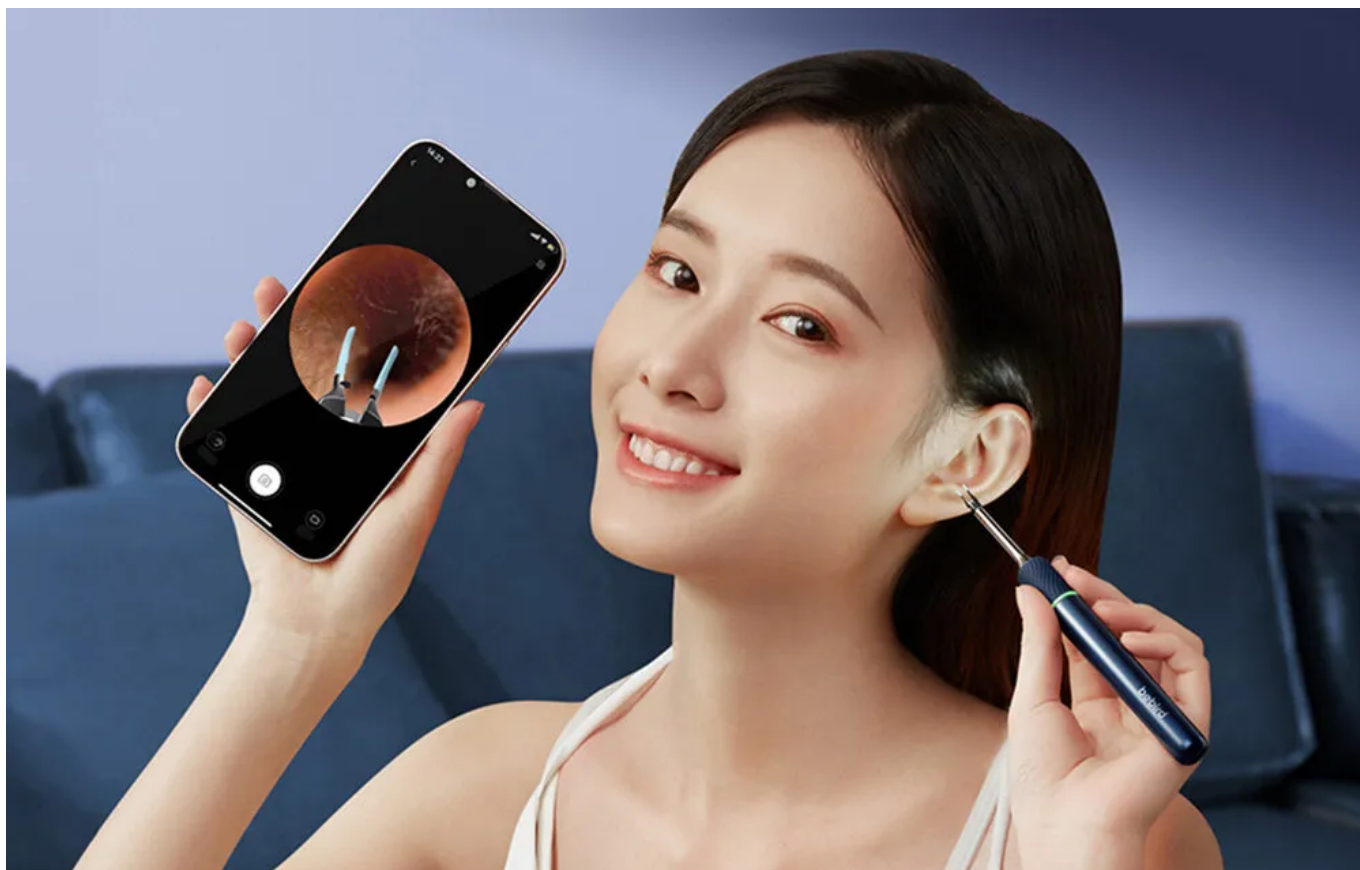

Otoscope with Ear Cleaning Camera

The Bebird Note5 Pro Blue Otoscope is an innovative device with **a 10 MP camera** that allows you to closely monitor the inside of the ear on your smartphone screen. Thanks to smart temperature control, the otoscope does not overheat, and **the LED backlight** provides better visibility and comfort.

10 MP camera with 3.2 mm endoscopic head

The Bebird Note5 Pro otoscope is equipped with a **10 MP** camera that transmits images to a smartphone screen in amazing detail. **The 3.2mm endoscopic head** allows precise cleaning of the ears without risk of damage. It guarantees **exceptional precision** - the camera captures every detail, putting the user in full control of the cleaning process.

Integrated Wi-Fi system - quick access to images

The integrated Wi-Fi system allows easy access to real-time images. This allows **the Bebird Note5 Pro** otoscope to connect wirelessly to the dedicated Bebird app for Android and iOS for easy operation. **An image-stabilizing gyroscope** makes movement smooth, eliminating hand tremor and improving user comfort.

Long working time - ready to act at any time

The 230 mAh battery provides up to an hour of continuous use after a full charge. **The charging time is only 1 hour**, which makes the device quickly ready for use. This ensures that **the Bebird Note5 Pro** otoscope is always ready to go, regardless of the situation.

Additional perks - intelligent temperature control and LED backlighting

With intelligent temperature control, the **Bebird Note5 Pro** otoscope provides comfort and eliminates the risk of overheating. The **6 LEDs** improve the visibility in the ear canal, **increasing the convenience of use**. The dust- and scratch-resistant housing ensures that the device retains its aesthetic appearance for a long time.
