Manufacturer: BEBIRD

Referention number: DNXXHILLGRMMGI

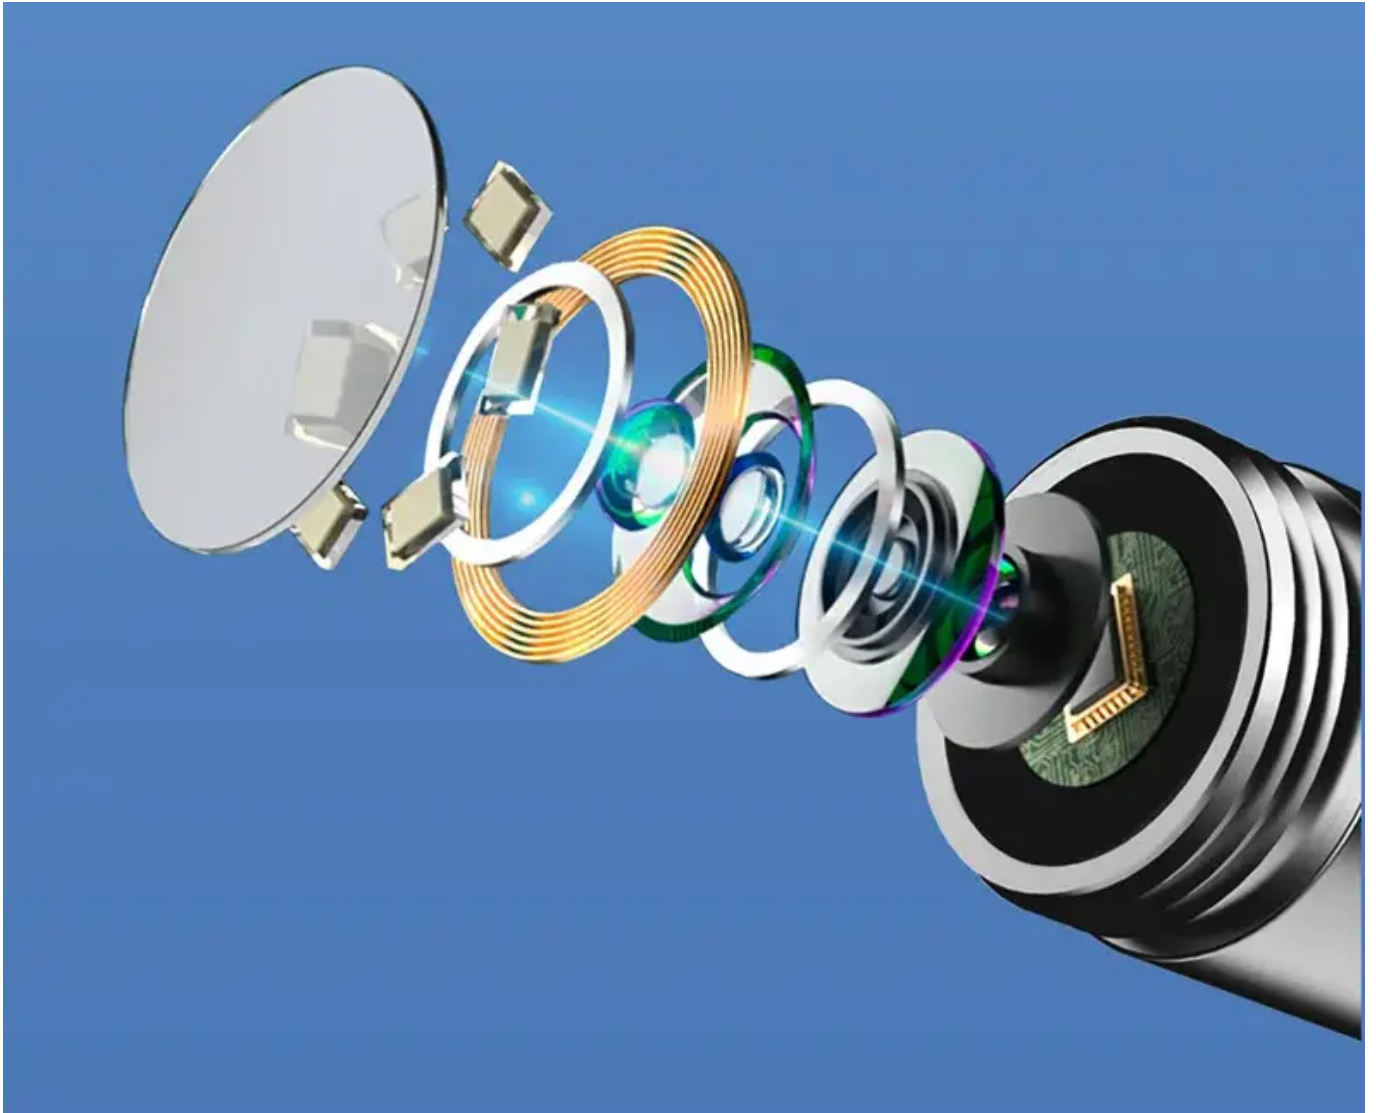

Information:

Bebird R1 White is a camera otoscope for safe and precise ear cleaning, equipped with a 3 MP camera with Full HD 1080p image, a wide viewing angle and 6 LED diodes that improve visibility. Thanks to the Bebird app on iOS and Android, the image can be viewed live on a smartphone, and photos and videos can also be taken. The set includes interchangeable tips for adults and children, and the device can also be used to examine the nose, throat and oral cavity. The lightweight design, 180 mAh battery and up to 45 minutes of operation on a single charge ensure convenient use.

Full product description

Effective and safe ear cleaning

Bebird R1 White is an ear-cleaning camera otoscope that **uses 1080p technology** and **6 LEDs** to provide clear images and safe use. With **the dedicated Bebird app**, you can stream real-time images to your smartphone and precisely control the cleaning process.

High-quality 1080p image and wide viewing angle

The **Bebird R1 White** is equipped with a **3MP camera** that provides high-quality images in **full HD 1080p** resolution . The wide viewing angle allows you to see every detail of the inside of the ear, which facilitates effective cleaning. **6 LEDs** providing cold light minimize reflections and improve image quality even in darker areas.

Dedicated Bebird app - easy to use on your phone

With **the dedicated Bebird app**, the otoscope connects to the phone via Wi-Fi, enabling real-time image transmission. Users can **see the inside of the ear on the phone's screen**, take photos and record videos to monitor ear health. The app runs on **iOS and Android**, making it easy for anyone to **control the ear cleaning process**.

Interchangeable accessories to increase the functionality of the device

The Bebird R1 White includes **several cleaning tips** that can be customized for different needs - for both adults and children. The product can also be used to examine the nose, throat and mouth, making it a multifunctional tool for personal hygiene. **Interchangeable accessories** allow for **hygienic use**, and its flexible design enhances safety.

Powerful battery - 45 minutes of operation on a single charge

The product features a **180 mAh rechargeable battery**, which provides up to **45 minutes of continuous use**. Charging is done via USB cable and takes about **1 hour**, making the device ready for use in a short time. The lightweight design weighing **just 13 grams** makes the otoscope convenient and easy to carry.
