Full product description

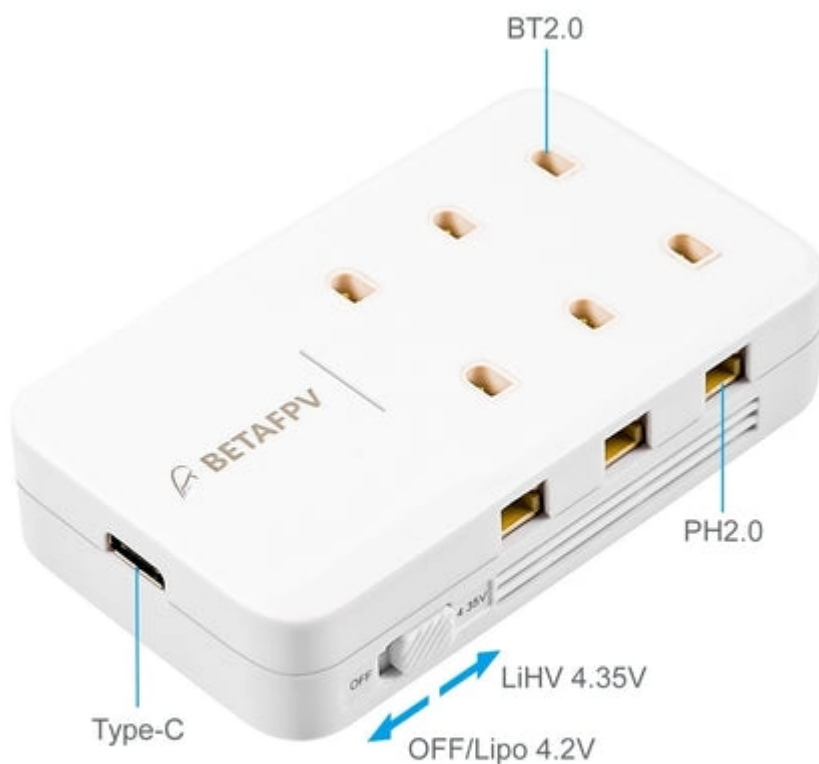

BETA FPV 6-PORT 1S CHARGER

BETA FPV 6-PORT 1S CHARGER is a charger that allows you to charge **six batteries** simultaneously, saving you time. With **BT2.0** and **PH2.0** compatibility, it supports different types of batteries for flexibility of use.

Charging multiple batteries simultaneously

With **six charging ports**, you can charge several batteries at the same time, significantly reducing waiting time. **Each port supports a charging current of up to 1A**, allowing you to replenish your batteries quickly and efficiently. This is great for those who want to enjoy flights for longer without having to change batteries frequently.

**Note: The switch to 4.2V is changed to OFF in the new batch.*

Universal connectors and charging protocols

The charger supports **Type-C** input and **PD3.0, QC3.0 and BC1.2** protocols for fast and stable charging. A wide **input voltage** range (5-12V) gives the charger the ability to power a variety of sources, including powerbanks and wall adapters.

Included:

- 1 x BETAFPV 6-PORT 1S CHARGER
- 1 x Wall adapter
- 1 x Type-C cable
- 1 x User manual
