Flying has never been so easy

The BETAFPV Aquila16 FPV Kit drone is equipped with **an advanced stable hover function**, which allows it to precisely maintain its position in flight. This feature makes flying intuitive and easy, even for those with no prior experience with drones. Stable drone control allows you to focus on discovering the joy of flying, instead of worrying about staying on course

Stable Hover Function Flying Has Never Been Such Easier

Perfect both indoors and outdoors

The Aquila16 FPV Kit is ideal for both indoor and outdoor flying, so you can enjoy flying the drone in any situation. **The drone's compact and lightweight design** provides maneuverability and easy control, making it a great choice for beginner pilots. Whether you're flying indoors or outdoors, this kit provides a complete user experience.

FPV Starter Kit for Anyone of Any Age

Your progress in your hands

The BETAFPV Aquila16 FPV Kit comes with VR03 FPV goggles that **allow you to record** and save your exciting flights in real time. With the DVR function, you can capture every moment of your flight for later playback and analysis. This is ideal for those who want to document their progress and share it with others.
