Full product description

Replacement AIO Flight Controller for BetaFPV Cetus

This AIO board is a replacement flight controller dedicated to the BetaFPV Cetus drone model. It is a direct replacement for the original component, allowing you to restore the full functionality of your drone in case of damage or the need to replace the existing board. The kit comes with a complete package, allowing installation: one AIO board with the necessary cable and four shock absorbers with screws for mounting. This is a practical solution to quickly and efficiently repair your drone to get it back to flying.
