Information:

The Black Forest hanging chair in ecru is a stylish and comfortable relaxation piece inspired by boho. Its openwork construction made of cotton ropes gives it a light, decorative look, while the 80 x 60 cm seat provides comfort for relaxing, reading or resting. The stork's nest design allows you to adopt a relaxed position, and the long ropes make it possible to hang it from a hook, beam or frame. The chair is ideal for use at home, on a balcony, terrace or in the garden, creating a cosy relaxation area.

Full product description

Relax in boho style

The Black Forest hanging chair in ecru combines a lounging function with a decorative character. Its openwork design and light colour scheme make the model a good fit for boho-inspired interiors.

A space for everyday relaxation

The seat area measuring 80 × 60 cm offers a place to rest, read or spend free time. The nest-style construction helps you adopt a relaxed position during use.

Openwork cotton construction

The chair is made from cotton ropes forming a decorative openwork weave. The woven construction gives the whole piece a light appearance and emphasises the product's relaxing character.

For indoors and the home relaxation area

Black Forest can be used at home, on a balcony, terrace or in the garden. The neutral ecru shade makes it easy to match the chair with light, natural and more distinctive arrangements.

Suspension adapted to the chosen place

Long ropes allow the chair to be hung from a suitably prepared hook, beam or a dedicated frame. This makes it possible to create a place to relax in the chosen part of the home or garden.

Decorative element of the space

The combination of ecru colour, woven seat and openwork details means that the chair also serves a decorative function. It can be complemented with a soft cushion or blanket, matching the look of the relaxation area to your own arrangement.
