Information:

Black Forest is a beige, single-person hammock made of cotton fabric, providing comfortable relaxation at home and outdoors. The large 195 × 100 cm surface allows you to read, take a nap or simply rest in comfort. The muted colour blends well with natural arrangements on a balcony, terrace, in the garden or in a boho-style interior. The hammock has a rope suspension system with mounting loops and supports a load of up to 200 kg. The set includes a practical cover that makes it easy to carry and store.

Full product description

Relax in the Black Forest hammock

Black Forest is a beige hammock designed for one person. The 195 × 100 cm lounging area allows you to position your body comfortably while reading, taking a short nap or relaxing quietly. The cotton fabric adapts to your figure, creating a pleasant place to spend your free time.

A natural accent on the balcony and terrace

The subdued beige colour blends easily with wood, plants and outdoor furniture. The hammock can be used on a balcony, terrace or covered veranda, creating a place for morning coffee, reading or a moment of respite after a long day.

Carry bag for easy transport

A carry bag is included in the set, helping with storing and carrying the folded hammock. This makes it easy to take the product to an allotment, camping, a weekend trip or a rest by the water. After use, the bag also helps reduce the storage space needed.

Hammock for home and outdoors

The versatile design allows the hammock to be used both in the garden and on the terrace, as well as indoors if suitably prepared. The light fabric complements arrangements kept in a natural, classic or boho style without overwhelming the other furnishings.

Rope suspension system

The material on both sides is connected to a rope system finished with mounting loops. This design allows the hammock to be attached between suitably selected support points. The maximum permissible load is 200 kg, and before each use the condition of the fastenings and the stability of the hanging point should be checked.

Your own relaxation zone

The single Black Forest hammock helps create a peaceful corner for reading, listening to music or relaxing outdoors. The absence of wooden spreader bars means the fabric wraps around the user, and when folded the product can be placed in the included bag and stored until the next use.
