Price: **119.00 zł** gross / 96.75 zł net

Manufacturer: EXTRALINK

Referention number: DNXGHINPERMMIQ

Information:

Black Forest is a white, single-person hammock measuring 200 × 100 cm, ideal for relaxing at home, in the garden, on the terrace or balcony. The wide fabric provides a comfortable position for reading, napping and resting, while the wooden spreader bars and strong ropes help maintain a stable shape and distribute weight evenly. The mounting loops make it easy to hang and carry, and the foldable design saves space during storage. Decorative tassels and the woven net give it a boho style and a light, natural look.

Full product description

Black Forest - white hammock for relaxation

Black Forest is a single-person hammock with an area of 200 × 100 cm, designed for relaxing at home and outdoors. Its light colour gives it a fresh look and makes it easy to match with interiors, terraces and garden relaxation areas. The wide fabric surface allows you to lie comfortably while reading, napping or simply resting peacefully.

200 × 100 cm surface for one person

The 200 × 100 cm dimensions create a space intended for one person. The fabric moulds to the weight of the body, helping you adopt a relaxed position while resting. The hammock can be used as a place to read a book, listen to music or unwind in a shaded part of the garden.

Wooden spreader bars and fastening ropes

The hammock is fitted with wooden spreader bars that help keep the fabric in an open position. The rope system distributes the load evenly between the suspension points, and the loop ends make it possible to attach the hammock to suitably prepared mounts. The design also makes the product easy to fold and carry.

For the garden, terrace and indoors

Black Forest can be hung between trees, beams or other mounting points suitable for this type of equipment. The hammock works well in the garden, on a covered terrace, balcony or in a spacious room. After use, it can be folded, so it takes up less space when stored.

Decorative boho-style tassels

The side edges of the hammock are decorated with a woven mesh finished with long tassels. These details give the structure a distinctive boho-inspired look and also make the hammock a decorative feature. The combination of white fabric, light wood and woven elements suits arrangements based on natural colours and materials.
