Information:

Black Forest is a white, two-person hammock with a large 200 x 150 cm lounging area, providing comfortable relaxation for two or on your own. Decorative tassels and the light colour give it a light, stylish look that suits the garden, terrace and boho-style arrangements. The set includes a free-standing frame, so the hammock can be set up without fixing it to trees or walls. It is a practical and attractive place for resting, reading and gentle swaying in the fresh air.

Full product description

Black Forest - white hammock for two people

The Black Forest hammock offers a wide lounging surface measuring 200 x 150 cm. Its two-person design allows you to relax together, read a book or rest in the fresh air. The white colour gives the whole piece a light look and makes it easy to match the hammock to different settings.

Wide lounging surface 200 x 150 cm

The hammock's dimensions mean the fabric offers plenty of space for two people. The wide surface lets you position your body comfortably and adopt a relaxed posture while resting. The hammock can become a place to unwind in the garden, on the terrace or in another leisure area.

Decorative tassels and light colour scheme

The white fabric has been complemented with decorative tassels that emphasise the hammock's relaxing character. This finish pairs well with garden greenery, wooden furniture and boho-style accessories. The light colour helps create a calm and cosy relaxation zone.

Free-standing frame included

The included frame allows you to use the hammock without attaching it between trees, posts or walls. This solution makes it easier to prepare a relaxation spot in a chosen part of the garden or on the terrace. The hammock can be placed wherever the available space allows the whole structure to be set up safely.

A place for relaxing together

The two-person Black Forest hammock is ideal for peaceful moments spent with a loved one. It can also serve as a spacious place for solo relaxation, listening to music or unwinding with a book. The gentle swaying helps you relax after an active day.

Hammock for the garden and terrace

The combination of a white hammock, decorative tassels and a free-standing frame creates a functional element of the relaxation area. The structure does not require permanent fixing points, making it easier to adapt its position to the layout of the space. The Black Forest model combines room for two people with a decorative appearance.
