Information:

The colourful Black Forest Classic hammock is a comfortable, single-person model made of cotton fabric, ideal for relaxing in the garden, on the terrace, on an allotment or while away. Bold stripes in shades of red, yellow, green and blue give it a decorative character. The 200 x 80 cm surface provides comfortable rest, and the maximum load of 200 kg guarantees durability. The lightweight design, weighing 1,5 kg, makes it easy to carry and assemble, and the included cover helps with storage and transport.

Full product description

Colourful Black Forest Classic hammock

Black Forest Classic is a single-person hammock distinguished by stripes in shades of red, yellow, green and blue. Its vivid colours make the product a place for relaxation, while also becoming a decorative element of the garden, terrace or allotment. The cotton fabric feels pleasant to the touch and helps you position your body comfortably while resting.

A comfortable place to relax

The hammock is designed for one person and offers enough space for reading, a nap or peaceful relaxation in the fresh air. The flexible fabric adapts to the shape of the body, and the classic design allows you to adopt a relaxed lying position. The product can be hung between trees, posts or on a frame designed for this purpose.

Surface measuring 200 × 80 cm

The hammock surface measures 200 × 80 cm, providing enough space for one person. The fabric proportions make it easy to lie comfortably across the full length of the body, and when folded the hammock takes up very little space. The maximum load specified for this model is 200 kg.

For the garden, terrace and allotment

Black Forest Classic works well in a home garden, on an allotment, terrace or in a summerhouse. The hammock lets you create a place to read a book, listen to music or relax in the shade. The colourful stripes blend with the greenery of plants and bring an energetic accent to the relaxation space.

Lightweight construction and easy carrying

The hammock weighs 1.5 kg, so it can be conveniently carried between different places. Strong ropes create a stable connection between the fabric and the suspension points, and the simple construction helps with quick assembly. The model can be taken camping, on a picnic, on a holiday trip or for relaxation in the forest.

Storage bag for easy keeping

A colour-matched storage bag is included, making it easier to transport and store the folded hammock. Its compact form means the product can be kept in a wardrobe, garage, car boot or among camping equipment. The bag also helps limit the fabric's contact with dust and dirt when the hammock is not in use.
