Information:

Black Forest is a single hammock with a frame measuring 200 × 100 cm, ideal for relaxing at home, in the garden, on the terrace or balcony. It provides a comfortable place for lying down or reclining, and the included frame means it can be used without searching for trees. Wooden bars keep the fabric spread out, while sturdy cords ensure stable suspension. The grey colour scheme blends easily with different settings, and decorative boho-style tassels add lightness and a natural character to the whole piece.

Full product description

Black Forest - grey hammock with stand

Black Forest is a single hammock measuring 200 × 100 cm, designed for relaxing at home, in the garden or on the terrace. The included stand makes it possible to set up a place to unwind without having to look for suitably spaced trees. The grey colour scheme makes it easy to match the set to different arrangements.

A space to rest for one person

The hammock surface measuring 200 × 100 cm offers space to rest in a lying or semi-reclining position. The hammock can accompany you while reading a book, listening to music or taking a peaceful break in the fresh air.

Wooden spreader bars and sturdy ropes

Wooden spreader bars help keep the fabric in an open position, making the hammock comfortable to use. The spreading ropes connect the resting surface to the mounting loops, and the visible details emphasise the product's leisure character.

Decorative boho-style tassels

The side netting finished with tassels gives the hammock a light, decorative look. This finish pairs well with wood, greenery and natural accessories found in gardens and on terraces.

For the home, garden and terrace

The muted shade of grey means the hammock can be incorporated into both bright interiors and outdoor relaxation spaces. The set with stand helps create a place to relax on a terrace, balcony, veranda or in the garden.

Peaceful outdoor relaxation

Black Forest makes it possible to create a one-person relaxation zone during warm days. The gently swinging hammock structure encourages relaxation, while the grey fabric, wooden spreader bars and decorative tassels create a cohesive composition.
