Information:

The BLACK FOREST garden swing, measuring 170 × 110 × 153 cm, is a comfortable, free-standing place to relax in the garden, on the terrace or patio. The navy colour scheme with light piping gives it an elegant look that blends well with its plant surroundings. The wide canopy protects against direct sunlight, while the soft seat with padded backrest ensures comfortable rest. Two side cushions add to the comfort and emphasise the swing's aesthetic, cohesive character.

Full product description

BLACK FOREST garden swing 170 × 110 × 153 cm

The BLACK FOREST garden swing creates a comfortable place to relax in the fresh air. Its dimensions of 170 × 110 × 153 cm make it suitable for placing in the garden, on a terrace or on a spacious patio. The navy colour scheme blends well with both greenery and the light elements of a home outdoor setting.

Canopy protecting the relaxation area

The wide canopy is located directly above the seat and helps reduce direct sunlight while relaxing. Its wavy finish with light trim emphasises the character of the swing and creates a coherent whole with the other textile elements.

Soft seat and additional cushions

The spacious seat with a padded backrest encourages relaxation while reading, chatting or resting quietly. Two side cushions provide comfortable support for the arms or back, and the uniform navy fabric gives the whole piece a neat appearance.

Freestanding construction for the garden and terrace

The freestanding construction means the swing does not need to be fixed to a wall or ceiling. This allows you to choose a convenient place to relax and adapt the product's position to the layout of the terrace, patio or home leisure area.

A place for peaceful rest

The gently rocking seat helps create a pleasant relaxation zone during warm days and evenings. The swing can be placed near plants, under a pergola or in a quiet part of the terrace, creating a space for resting alone or in company.

Navy finish with light trim

The navy seat, cushions and canopy create a cohesive colour composition. The light trim highlights the edges of the fabric and provides a decorative accent, helping the swing look attractive among the lawn, flowers and garden greenery.
