Information:

The BLACK FOREST garden swing in an elegant grey colour is a comfortable place to relax on the terrace, patio or in the garden. The spacious seat with backrest and two cushions provide comfort while resting, reading or chatting outdoors. The fabric canopy creates pleasant shade and emphasises the stylish, garden character of the structure. The stable metal frame with a wide base guarantees solid support, while the subtle colour scheme easily matches different space arrangements.

Full product description

BLACK FOREST garden swing in grey

The BLACK FOREST garden swing, measuring 170 × 110 × 153 cm, creates a comfortable place to relax on the terrace, patio or in the garden. The grey colour scheme of the seat and canopy blends well with both light and darker surroundings.

A pleasant place to relax in the garden

The spacious seat with backrest allows you to spend time comfortably in the fresh air. Two additional cushions help adjust the support while reading, chatting or relaxing quietly among the greenery.

Canopy above the seat

The fabric canopy covers the upper part of the swing and helps create a pleasantly shaded spot. The wavy finish with light piping emphasises the garden character of the structure and matches the seat trim.

Relaxation with gentle rocking

The suspended seat allows for gentle rocking while you rest. The swing can become part of a garden relaxation area, a place for morning coffee or evening unwinding on the terrace.

Metal frame with a wide base

The structure is based on a metal frame with spread legs that create a wide base. The dark colour of the frame contrasts with the grey fabric and emphasises the swing's simple form.

For the garden, patio and terrace

The muted colour scheme makes it easy to incorporate the swing into various leisure space arrangements. The model looks great among plants, by the house façade and on an open terrace.
