Price: **48.19 zł** gross / 39.18 zł net

Manufacturer: EXTRALINK

Referention number: DNXGHJJOMRMMNI

Information:

The Black Forest thermal mug with a capacity of 1200 ml is a practical and stylish companion for everyday use, at work, in the car and when travelling. It provides convenient drinking thanks to the built-in straw, while full leak-proof protection prevents spills in a bag or backpack. The ergonomic handle makes it easy to carry, and the compact shape fits most car cup holders. The minimalist beige colour and matt finish give it a modern look, combining functionality with aesthetics.

Full product description

Take your mug wherever you want

The Black Forest thermal mug is **an indispensable companion for everyday challenges** – both in the city and on the trail. Thanks to its **practicality**, it is ideal for work, while driving, and during outdoor activities. It provides **convenient access to your drink whenever you need it** – without spilling and without compromise. This is a product designed for people who **do not slow down**.

Large capacity in a compact mug.

With a capacity of as much as **1200 ml**, you do not need to keep reaching for a refill – that is **twice as much as a standard mug**. This volume makes it perfect for office work, university or in the car on **longer journeys**. The built-in straw allows for **quick and convenient drinking** – even while driving or walking. It is a solution that **increases comfort and saves your time**.

Leak-proof and ergonomic in one

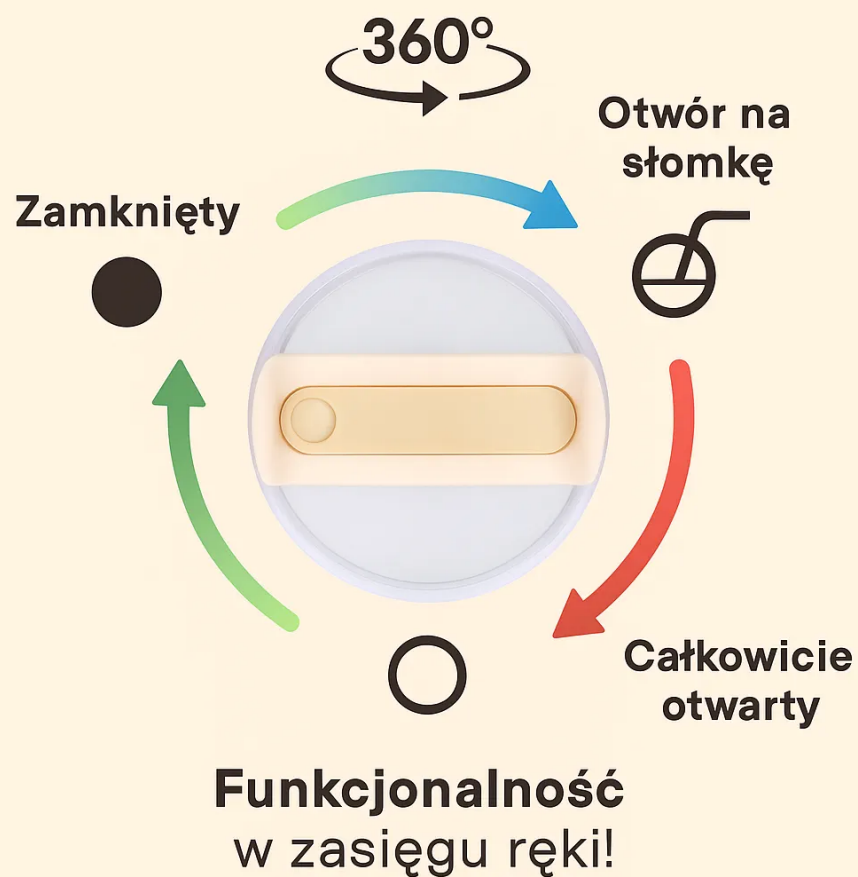

The Black Forest mug has been designed with **complete leak-proof protection** in mind – you can safely put it in a bag or backpack. **Nothing will spill**, and you can focus on what matters. In addition, the **ergonomic handle** makes it easy to carry the mug with one hand, which is especially useful when on the move or while driving. The **compact shape** has been adapted to most car cup holders, so you can have it **always at hand**.
