Information:

The Black Forest folding garden lounger in navy blue provides comfortable relaxation on the balcony, terrace, by the pool or in the garden. The high backrest, wide armrests and soft head cushion support a comfortable position while reading, sunbathing and relaxing. The adjustable design allows the lounger to be used in a seated or more reclined position, while the combined backrest and footrest encourage relaxation. The metal frame guarantees stability, and the folding design makes it easy to carry and store.

Height	210 mm
Width	340 mm
Depth	470 mm

Full product description

Navy blue Black Forest garden lounger

The foldable Black Forest lounger creates a comfortable place to rest on the balcony, terrace or in the garden. The navy cover, high backrest and head cushion help you adopt a comfortable position while reading, sunbathing or relaxing peacefully.

Foldable design for relaxation

The adjustable position allows the lounge chair to be used both in a seated and a more reclined position. The combined backrest and footrest help support the body and encourage relaxation in the fresh air.

High backrest and comfortable armrests

The high backrest supports the back along its full length, while the wide armrests allow your arms to rest comfortably. This solution helps you relax during longer periods on the terrace, balcony or by the pool.

Head-supporting cushion

The lounger is fitted with a soft cushion placed at the top of the backrest. This element helps comfortably support the head and neck, especially when resting in a reclined position.

Metal frame and taut cover

The black metal frame supports the seat, backrest and footrest. The navy cover has been stretched over the structure in a way that allows the body to be positioned comfortably and keeps the whole lounger looking light and streamlined.

For the garden, terrace and balcony

The subdued navy colour scheme blends well with garden greenery and various outdoor relaxation settings. The foldable design makes the lounge easy to carry and helps reduce the space needed for storage.
