Information:

The Black Forest garden lounger in grey is a comfortable and functional 2 in 1 solution that can be used as an armchair with a footrest or as a reclining lounger. The multi-position design with a lock makes it easy to adjust the position for relaxing, reading or sunbathing. An adjustable headrest, shaped backrest and armrests provide comfort, while the stable, rust-resistant frame ensures safe use. The breathable seat is resistant to water and sunlight, making the lounger ideal for the garden, terrace, balcony or by the pool. The foldable design makes storage and carrying easier.

Full product description

Black Forest garden lounger in grey

Black Forest is a reclining garden lounger that combines the function of an armchair and a place to relax in a lying position. The grey colour scheme blends well with the arrangement of a garden, terrace, balcony and poolside area.

Multi-position design tailored for relaxation

The adjustable setting allows the product to be used as an armchair with a footrest or as a fully reclined lounger. A special lock helps keep the structure in the selected position and protects it from accidental changes.

Adjustable headrest and comfortable armrests

The lounger is equipped with an adjustable headrest, contoured backrest and armrests. This solution allows you to adjust support for the head and whole body while sunbathing, reading a book or relaxing outdoors.

Stable construction for everyday use

The rust-resistant frame ensures stability when sitting down and relaxing. The armrests provide additional support, while the maximum permissible load of the lounger is 120 kg.

Breathable seat for warm days

The breathable seat material promotes comfortable relaxation during warmer days. The surface is resistant to water and sunlight, making the lounger suitable for outdoor spaces.

Folding for easy storage

The lounge can be folded quickly, making it easy to carry and store out of season. The 2-in-1 design allows you to create a comfortable place for reading, sunbathing or peaceful relaxation in the garden.
