Full product description

Multifunctional nozzle for effective cleaning

The 6-in-1 Multi Nozzle is a universal tool for **pressure washers** that allows you to quickly switch between different water jet modes. It allows you to adjust the pressure and width of the jet to the type of surface to be cleaned, **increasing cleaning efficiency**. The **switchable nozzle** will work well in a variety of applications, such as washing cars, paving stones, facades or tools.

Versatile cleaning system

The nozzle **offers six different settings** that allow you to tailor the jet to a specific task. Modes include **0°, 15°, 25° and 40° angles**, as well as **wash and rinse modes**. This solution makes one nozzle replace several standard nozzles.

Fast and convenient operation

Changing the jet mode is done by turning the head, which makes **operation intuitive**. There is no need to stop work to change nozzles or change pressure in the washer. **Quick adjustment** saves time and effectively adjusts the pressure to the surface.

Robust construction

The nozzle is made of **high-pressure and temperature-resistant materials**, which ensures its long life. It can operate at a maximum pressure of **200 bar** and a flow rate of **11 l/min**. The robust design allows it to be used in harsh conditions.

Versatility and compatibility

The 6-in-1 Multi Nozzle is compatible with Karcher pressure washers and other models that have a standard M18 thread. **It fits a variety of pressure washers**, making it a versatile accessory for home and professional use.
