Information:

BLACK FOREST is a free-standing garden swing with a large, round nest-style seat, ideal for play and relaxation outdoors. The stable frame measuring 248 × 187 × 185 cm does not require mounting on a tree or an additional beam, so it can be placed anywhere in the garden on a suitably prepared surface. The spacious seat provides comfort and easy access, while the suspension on four ropes supports ease of use. The colourful finish makes the swing an attractive feature of the leisure area.

Full product description

BLACK FOREST frame swing nest seat

The Black Forest swing combines a free-standing frame with a large, round nest-style seat. With dimensions of 248 × 187 × 185 cm, it is ideal as a place for play and relaxation in the home garden.

Spacious, round seat

The nest-style seat offers children plenty of room while swinging. The round surface allows for a comfortable seated position, and the open design makes it easy to get on and off.

Free-standing construction

The swing comes with its own frame, so it does not need to be hung from a tree or an additional beam. It can be placed on a suitably prepared, level surface in the chosen part of the garden.

A colourful element of the garden space

The combination of blue and yellow frame elements with the black-and-blue seat gives the swing a distinctive look. The product can complement a leisure area next to a patio, gazebo or playground.

Suspended on four ropes

The round seat is connected to the top beam of the frame by four ropes. This arrangement of attachment points helps keep the seat in the correct position during everyday use.

Active outdoor play

The Black Forest swing encourages children to spend time outdoors. Swinging can be part of active play, and the wide seat is also suitable for peaceful relaxation in the garden.
