Product features

Charging source	AC
Height	358 mm
Input voltage	253 V
Output voltage	5 V
USB charging port	Yes
Width	325 mm
Depth	520 mm
Power bank & device charging at once	Yes
USB connector type	USB Type-A
Surge protection power	10000 W
Suitable for outdoor use	Yes
Fast charging	Yes
Storage temperature (T-T)	-25 - 40 °C
Shape	Rectangle
Cables included	AC
Output current (max)	30 A
Humidity measurement range	10 - 90%
USB Type-C output power	100
USB Power Delivery (USB PD)	Yes
IFU / User manual	Yes
USB Type-C ports quantity	2
Operating temperature (T-T)	-20 - 40 °C
AC input power	5000 W
Power protection features	Overheating

On/off switch	Yes
Cordless recharging	Yes
Cigar lighter adapter included	Yes
Total output power	5000 W
Wi-Fi	Yes
Bluetooth	Yes
Control type	Buttons
Apps supported	Yes
USB Type-A output power	18
Number of DC output quantity	2
Number of DC input quantity	1
Adapter included	Yes
Cigar lighter output	1
Cigar lighter input	1
Product colour	Black
USB Power Delivery up to	100 W
AC output power	5000 W
USB Type-A output ports	4
Fast charging technology	Power Delivery
Number of simultaneously connected devices (max)	16
Waveform	Pure sine
Built-in display	Yes
Product weight	30000 g

Full product description

Modular energy supply system for all needs

Bluetti AC500 and B300S is an expandable power system that will definitely change the way you use energy. It's designed to help you get through power outages, stay connected with unlimited energy wherever you go.

Bluetti AC500 B300S Features

5000 Watt inverter with pure sine wave power

The **Bluetti AC500** inverter provides a high-quality pure sine wave and accepts **overloads of up to 10 kW**, ensuring that anything you connect will operate with full functionality and efficiency.

5000W

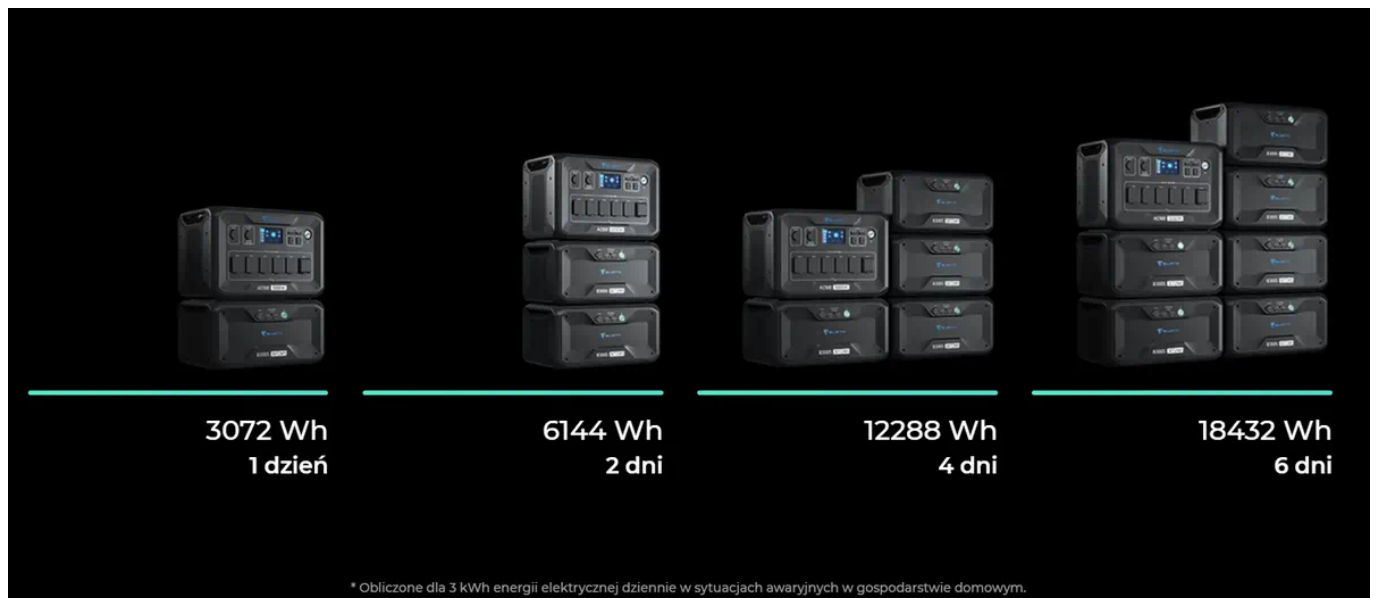

Load any way you want

No matter where you are, you can charge your AC500 system at any time. When connected to a wall outlet and solar panels, the AC500 system supports an impressive input power of up to 8,000 watts. Charge the system before you pack up for a camping trip, and your portable power will be ready to go into the field. (At least 2* B300S required.)

Expandable with additional B300/B300S batteries

The **AC500** is 100% modular and expandable with 6 **B300S** batteries (3072 Wh each) for a total capacity of 18,432 Wh. Power the basic needs of the whole family for days, both during daily use and in case of power outages!

You will never run out of energy

The AC500 powers your appliances like a gasoline/gas generator, but without the fuel costs, noise and pollution, making it safe enough to use next to you, whether you're at home, pitching a tent or going on a camping trip.

16 ports for every need

Just plug in what you want to charge, the AC500 will do the rest for you.

Control at your fingertips

Access your AC500 from the BLUETTI app - real-time input and output, customized power consumption, firmware updates and more.
