Full product description

Your memories, your route, your camera - capture it all with the Botslab V9H

Don't let fleeting moments fade into the darkness of oblivion. **From dynamic adventures on the trail to quiet moments behind the wheel**, the Botslab V9H is ready to become a reliable witness to your life. This versatile camera combines **the functions of a sports and car camera**, offering exceptional **4K** image quality **and intuitive operation** wherever you are.

**Pocket-Sized Design
Ready Anywhere**

Two worlds, one device: Sports and car camera in one

The Botslab V9H is a device that combines two key functions: **a sports camera and a car camera**. Forget the need for two separate devices. Now, in one **compact body**, you get the power to record both extreme feats and everyday car trips. It only takes a moment to transform the camera from **sports mode**, ideal for biking or hiking, to **a reliable witness on the road**. This solution saves space, money and time, giving

you full freedom to document all important moments.

An image that delights in detail - 4K UHD and 20MP

With the Botslab V9H, every detail becomes meaningful. With **4K UHD resolution at 30 frames per second**, your videos will be sharp and vibrant, even in dynamic scenes. You won't miss a single detail - from picturesque landscapes to dynamic action. And if you want to capture fleeting moments in photography, **the 20MP sensor** will provide photos full of detail and color. Capture the beauty of the world around you with unprecedented clarity and depth, creating memories you'll want to view and share.

Two screens, dual perspective - perfect selfie and framing

A unique feature of the Botslab V9H camera is the **dual screen**. The front screen makes it easy to **frame selfies and vlogs**, allowing you to always be in focus and in control of the shot. **The rear, touchscreen**, is used to navigate menus, review recordings and conveniently set parameters. With two screens, working with the camera becomes **intuitive and enjoyable**, whether you are filming yourself or your surroundings. You can easily capture the excitement on your face during an extreme bike ride, or perfectly compose the frame of a sunset.

From Dash to Trail, Capture It All

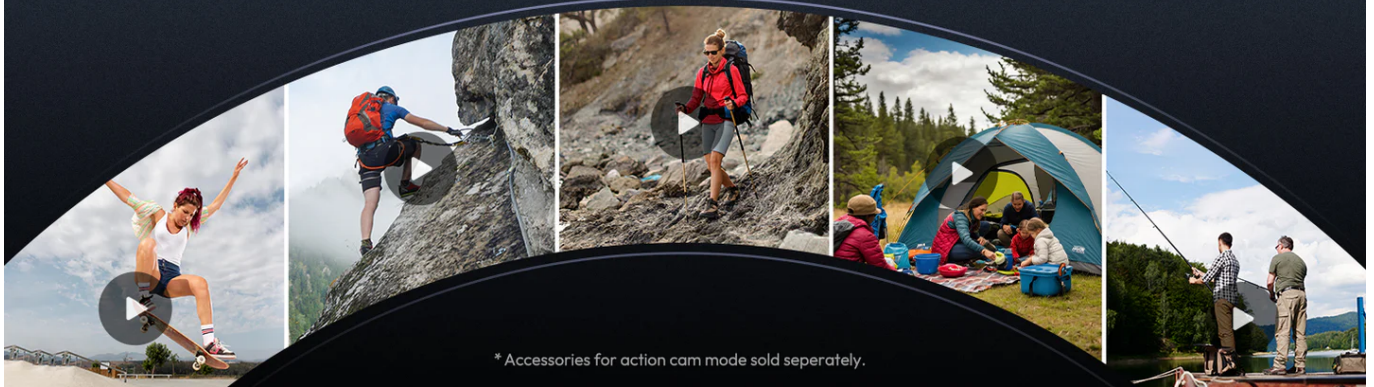

Image stabilization that eliminates shake - smooth recordings in all conditions

Whether you're driving on a bumpy road, running on a mountain trail, or engaging in extreme sports, the Botslab V9H will give you **stable and smooth video**. Advanced **electronic image stabilization (EIS)** effectively nullifies shake and shake, allowing you to create professional-looking footage, even in the most dynamic situations. **No more blurry, unreadable videos!** Now you can focus on experiencing adventures, knowing that your camera will record them in excellent quality.

Powered by EIS-Steady Technology

Non-stop recording - recording loop and parking mode

In car camera mode, the Botslab V9H offers a **loop recording function**. This means that the camera automatically **overwrites the oldest recordings**, ensuring continuous recording and saving space on the memory card. In addition, the **built-in G-sensor automatically secures recordings** in the event of a collision or sudden braking, protecting important evidence. For added security, the camera also offers **24-hour parking monitoring mode** (additional hardwire kit required), which watches over your car even in your absence. As a result, you can feel more at ease about your car, knowing that any disturbing situation will be recorded.

Easy sharing of memories - Botslab app

Have you captured amazing shots? Want to share them with the world? With the **Botslab app**, it's quick and easy. **Connect your camera to your smartphone via Wi-Fi** and instantly upload photos and videos to the app. Edit, share on your favorite social media platforms and delight your friends with your adventures. The Botslab app is a command center for your recordings, giving you full control over your memories and making it easy to share them with others.

Ready for any adventure - durable and compact

The Botslab V9H was designed with adventure in mind. Its **compact and rugged design** makes the camera **rain- and splash-resistant** (no immersion or prolonged contact with water) for use in a variety of weather conditions. Take it with you **to the beach, the mountains, the woods** - wherever your passion for discovery will carry you. Its compact size makes the camera extremely **handy and easy to carry**. The Botslab V9H is a camera that will keep up with you in any situation.

Ready for Any Weather

Built to handle rain and splashes with ease

* V9H is safe in rain and splashes, but not suitable for swimming, surfing, or diving.
