Full product description

Botslab G500H Pro - premium car DVR

Meet **the Botslab G500H Pro** - an advanced car DVR that will take care of your safety and peace of mind on every trip. The set includes **a 3K (1440p) front camera** and **a 1080p rear camera**, so you'll capture details from both the front and rear of your vehicle. Built-in **GPS** and **2.4GHz Wi-Fi** will allow you to easily manage your recordings and track your route. All of this is enclosed in a stylish and compact casing, perfectly matching the interior of any vehicle.

High image quality - visibility at any time of day

The Botslab G500H Pro features **multi-lens glass optics** that, combined with **HDR and WDR**, capture video up to 2K with excellent clarity and detail. In both daytime and harsh lighting conditions, the camera captures key details such as **license plates, faces and road signs**. The front camera records in **1440p** and the rear camera records in **1080p**, providing a wide field of view and clarity.

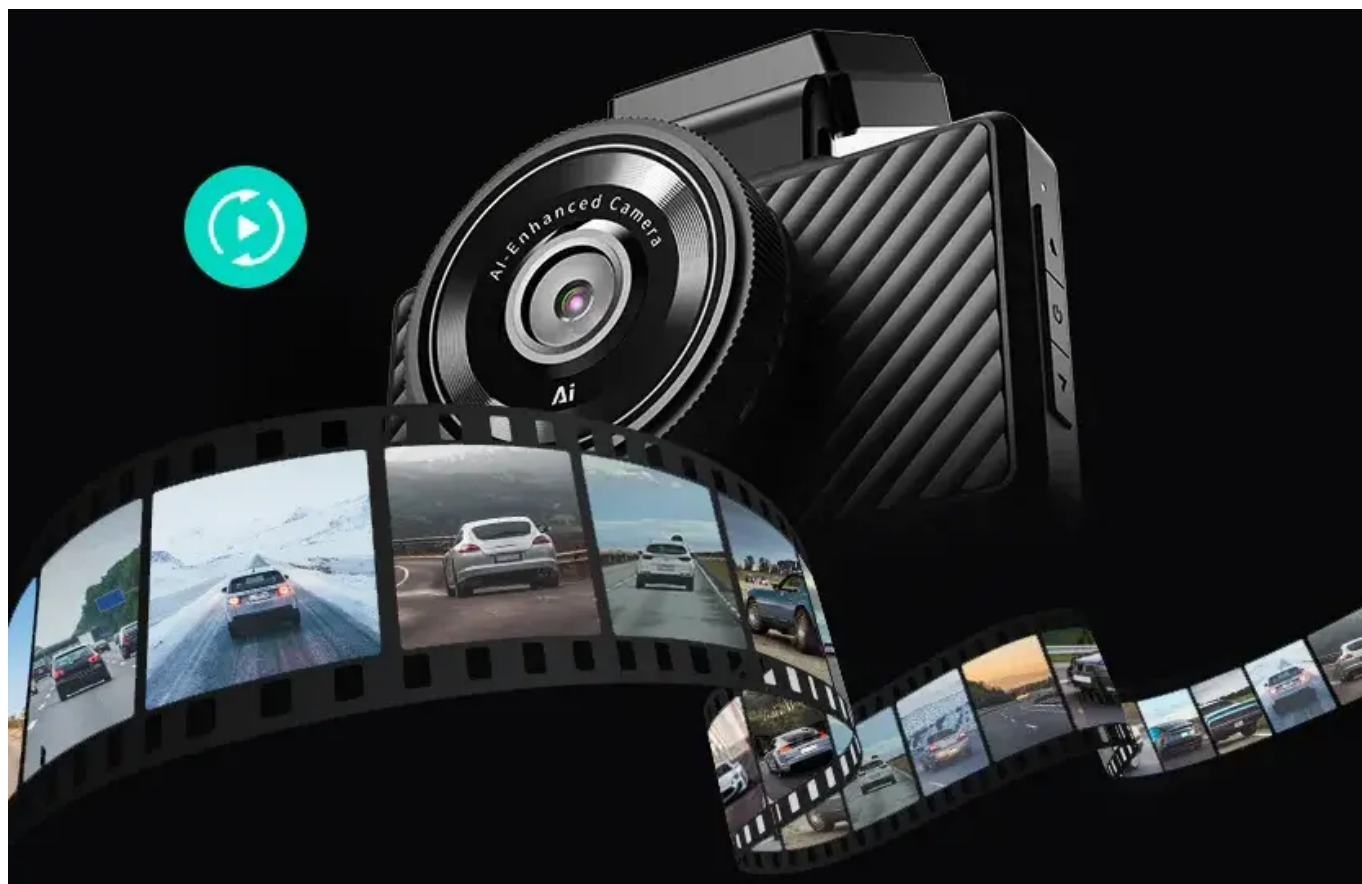

Full security with monitoring modes

Take care of your vehicle's protection even when parked. **The 24-hour parking mode** automatically activates the camera if it detects a shock or movement near the vehicle. In addition, the built-in GPS system allows you to accurately record speed and location information in real time, which comes in handy in case of traffic incidents.

Convenient management with Wi-Fi and app

With **built-in 2.4GHz Wi-Fi** and a mobile app, you can easily view recordings, edit them and share them without the need for a computer. The app also allows you to update the camera's settings, making operation even more intuitive. This combination of performance and quality ensures video recording without any unnecessary complications.

Functionality in a compact form

The Botslab G500H Pro's **stylish and compact housing** makes it easy to install and unobtrusive inside the vehicle. **The 140° front and 120° rear viewing angles** allow you to capture a wide view of the road, and the camera's thoughtful design ensures durability and reliability. The new Botslab G500H Pro is built with advanced technology to meet the demands of modern drivers.
