Full product description

Botslab HK30 Pro - advanced car video recorder

The Botslab HK30 Pro is a device that combines quality, functionality and safety on every journey. With **2K (1296p) resolution** and a wide 140° viewing angle, you'll capture every detail on the road. The Wi-Fi function allows you to easily monitor your recordings in real time via a mobile app, making the device extremely intuitive to use. **The stylish housing** blends in perfectly with the interior of any vehicle.

Exceptional recording quality thanks to 2K resolution

The Botslab HK30 Pro video recorder provides exceptional recording quality thanks to its **2K resolution**. The image is extremely clear, capturing details such as **vehicle license plates** and other important elements. **The wide 140° viewing angle** ensures a more complete picture of the traffic situation, increasing safety while driving.

Parking monitoring function

The Botslab Dash Cam HK30 Pro offers 24/7 vehicle monitoring with its **parking monitoring function**. When motion or collision is detected, the device automatically starts recording, providing protection in any situation. The feature works regardless of whether the car is in motion or parked.

Loop recording and emergency recording protection

The Botslab HK30 Pro records in a loop, meaning that the oldest recordings are automatically overwritten to free up space for new ones. In the event of a sudden event, such as a collision, **the Emergency Recording function** secures the recordings, protecting them from being overwritten. This ensures that key moments are always available.

Intuitive operation with Wi-Fi and mobile app

With **2.4GHz Wi-Fi** and a mobile app, the Botslab Dash Cam HK30 Pro video recorder allows you to monitor recordings in real time and manage device settings at the app level. Regular **OTA updates** provide access to the latest features, ensuring that the device is always ready for action. All of these features enhance user experience and safety on the go.
