BotsLab

Manufacturer: BOTSLAB

Referention number: DNXXGHJJOIRMMJM

Information:

The BOTSLAB W311 camera offers 2K HD (2304 x 1296) image quality with a 1/2.8" CMOS sensor and F1.6 aperture, providing a clear view even in low light. The wide 103.4° viewing angle, together with the 340° pan mechanism and 90° tilt, enables precise monitoring of the area. Night mode with a range of up to 30 m, motion tracking, and sound and light alarms enhance security around the clock. Recordings can be saved to a microSD card up to 256 GB or in the BOTSLAB cloud. The camera works with Alexa, Google Assistant, the mobile app, NVR and ONVIF.

Full product description

High image quality - detail and clarity in every situation

The BOTSLAB W311 camera provides images in **2K HD resolution (2304 x 1296)**, which guarantees **excellent quality and detailed recordings**. Thanks to the **1/2.8" CMOS sensor** and the **F1.6 aperture**, the camera captures a **clear image regardless of lighting conditions**, while its **wide viewing angle (103.4°)** enables **full coverage of the monitored area**. The **rotating mechanism (340°)** and **90° tilt angle** allow for **precise adjustment of the field of view**, ensuring **full control over the space**.

Night vision and advanced motion detection

The BOTSLAB W311 camera has been designed with **24-hour protection** in mind. Thanks to **night vision technology**, the **night-time visibility range reaches 30 metres**. In addition, the **object tracking function** ensures **precise motion monitoring**, and **sound and light alarms** respond to every suspicious event, which **increases security day and night**.

Flexible recording storage - access to data at any time

The BOTSLAB W311 camera allows recordings to be saved on a **microSD card up to 256 GB** (sold separately), and also offers an option for **cloud data storage**. Thanks to the **one-year BOTSLAB cloud trial**, you can **store motion detection clips for 7 days**, ensuring **easy access to important recordings** whenever needed.

Easy integration with smart home systems

Thanks to **compatibility with Amazon Alexa and Google Assistant**, the **BOTSLAB W311 camera** allows for **convenient voice control**. **Remote monitoring** is carried out via the **BOTSLAB app** on Android and iOS, enabling **full control over the home security system from anywhere**.

Versatile compatibility with monitoring systems

The **BOTSLAB W311 camera** works with an **NVR system** and the **ONVIF protocol**, allowing for **easy integration with other monitoring cameras** in your home. Thanks to **panoramic** and **object-focused** modes, the camera **adapts to different user needs**, ensuring **full protection of your home**.
