Full product description

cnMatrix Switch EX2052-P

Cambium Networks ' next-generation switching platform offers a cloud-managed, high-performance, feature-rich enterprise-class Ethernet switching solution. The cnMatrix series of fully managed switches provides full Layer 2 and Layer 3 capabilities with enhanced access security. Depending on the model, the cnMatrix EX2000 series offers flexibility with SFP (10 Gbps) or SFP (1 Gbps) uplink ports.

The cnMatrix switch platform provides:

- Easy and simple, free management in the cloud (or locally) using cnMaestro™ or XMS
- Touchless switch deployment simplifies installation
- Rules-based automation eliminates manual and time-consuming configuration

- Enhanced security with automated profiling and device segmentation
- Policy-based automation eliminates manual configuration when adding, moving and changing network devices
- Unified wired/wireless access solution

cnMaestro

XMS
