Full product description

cnMatrix EX3024F fiber optic switch

Cambium Networks' next-generation **cnMatrix™** switch platform offers a cloud-managed, high-performance, feature-rich, **enterprise-class Ethernet switching** solution. The cnMatrix series of fully managed switches provides full Layer 2 and Layer 3 capabilities with enhanced access security. The **EX3024F** is a fiber switch that features all **10 Gbps SFP** fiber ports . It also has two internal power supplies for added robustness and redundancy.

The cnMatrix switch platform provides:

- Easy and simple, free cloud (or on-premise) management with cnMaestro™
- Zero-touch switch deployment for easy installation
- Enhanced security with automatic device profiling and segmentation
- Policy-based automation eliminates manual configuration when adding, moving and changing network devices
- Unified wired and wireless access solution

Network management cnMaestro X

cnMaestro X is a simple yet advanced next-generation network management solution for Cambium Networks' wireless and wired solutions. The system offers flexible scalability and management from a single point of view to provide secure, end-to-end network and wireless lifecycle management with zero-touch provisioning, monitoring and troubleshooting. It simplifies operations and ongoing maintenance.
