Manufacturer: EXTRALINK

Referention number: DNXLKOOHSSP

Product features

Product type	Half-shell sealing element
Material	Polymide
Product colour	White

Full product description

Fiber optic splice cover 60mm, 1 piece

Fiber optic splice covers - these are flexible, heat-shrinkable elements that reduce their volume when exposed to heat. They are equipped with stainless steel rods, which provide additional mechanical protection for the weld. Once the casing shrinks, the weld area is not exposed to mechanical damage. It also protects against moisture and contamination of all kinds.

Price is for one piece!
