Price: **292.37 zł** gross / 237.70 zł net

Manufacturer: CISCO

Referention number: DNXEDMILMRMMJH

Product features

Height	38.5 mm
Firewall security	Stateful packet inspection (SPI) firewall
Width	130 mm
Depth	200 mm
Connectivity technology	Wired
Security algorithms	128-bit AES
Storage temperature (T-T)	0 – 70 °C
Maximum data transfer rate	0.1 Gb/s
Data transfer rate	100 Mb/s
Networking features	Fast Ethernet
Networking standards	IEEE 802.3
Ethernet LAN (RJ-45) ports	4
Full duplex	Yes
DC-in jack	Yes
Operating temperature (T-T)	0 – 40 °C
Cabling technology	10/100Base-T(X)
Quality of Service (QoS) support	Yes
Ethernet interface type	Fast Ethernet
Dual-band	No
Web-based management	Yes
Ethernet LAN	Yes
Product colour	Black

Ethernet WAN	Yes
DHCP client	Yes
DHCP server	Yes
Product dimensions (WxDxH)	130 mm
Connectivity LEDs	Y
Product weight	576 g

Full product description

Cisco RV042 VPN Dual WAN Router - a reliable and secure network solution for small businesses.

Cisco RV042 Dual WAN VPN Router is an excellent choice for companies that value reliability and security. With **support for two WAN connections**, the device guarantees uninterrupted operation even in the event of failure of one of the providers, and **simultaneous load balancing** increases network performance. **Advanced VPN features** allow secure access to corporate resources from anywhere, making remote work safe and hassle-free. **Simple configuration, a high level of business-grade security, and optional cloud-based Internet filtering** make this router the ideal solution for any fast-growing business.

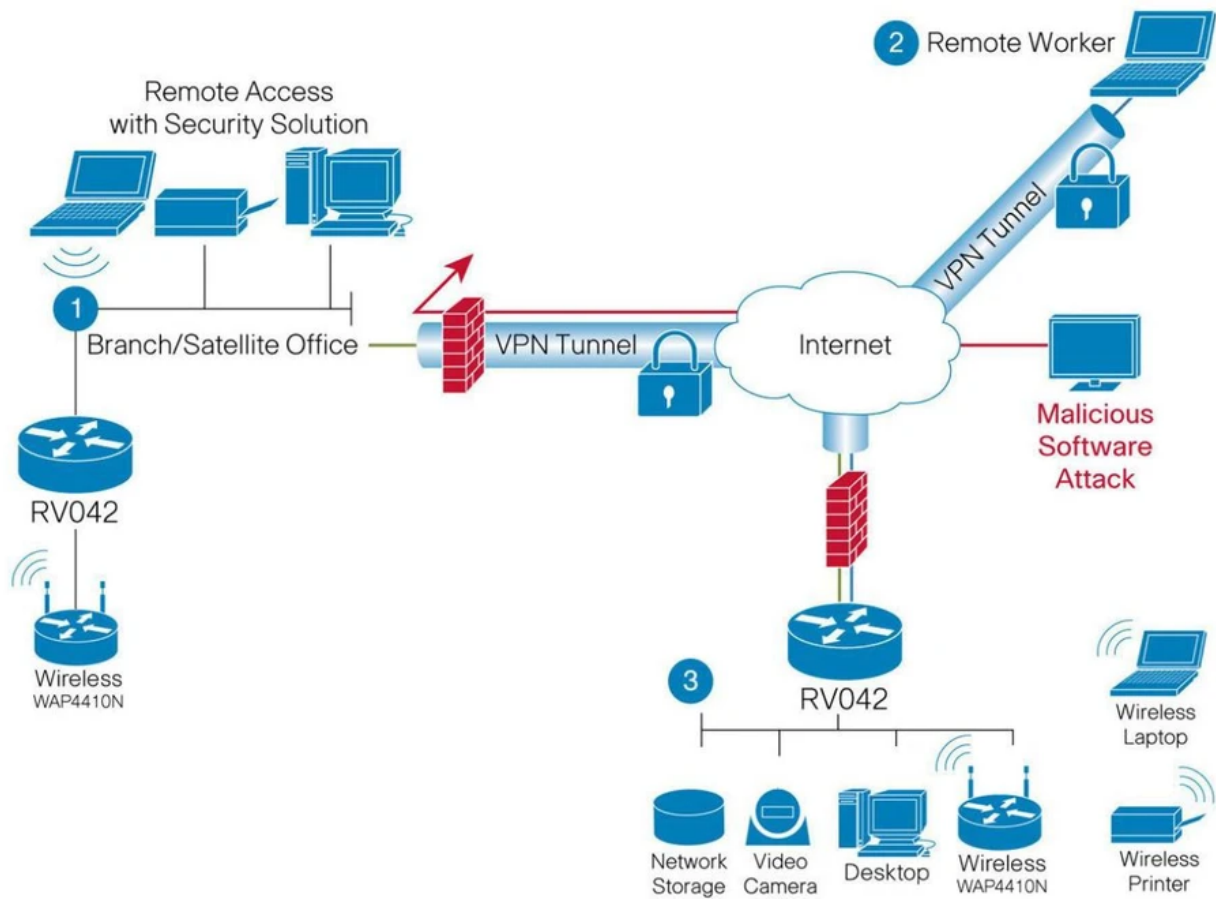

Dual WAN connection and advanced VPN features for maximum performance and business continuity

With the ability to use two WAN connections, the router balances the load, resulting in better network performance. When using different service providers, the device guarantees uninterrupted operation, even if one of the providers fails. Advanced VPN features allow secure access to corporate resources from anywhere, offering a level of security just like at the company's headquarters.

High level of security and simple configuration

The Cisco RV042 router offers business-class security features, and optional cloud-based Internet filtering further protects your network. The setup process is quick and easy with an intuitive browser-based interface and configuration wizards.

Typical configuration:

Key features:

- Two 10/100 Mbps Fast Ethernet WAN ports for load balancing and/or uninterrupted network operation
- Built-in 4-port Fast Ethernet switch
- Security: reliable firewall (SPI) and hardware encryption
- Advanced IPsec-based VPN features for a high level of security
- Intuitive browser-based device manager and configuration wizards
