Price: **556.17 zł** gross / 452.17 zł net

Manufacturer: CISCO

Referention number: DNXEDMIMGRMLOL

Product features

Storage relative humidity (H-H)	5 – 90%
Height	177 mm
Output voltage	12 V
LED indicators	Activity
Routing protocols	RIP-1
Firewall	Yes
URL filtering	Yes
Firewall security	Stateful packet inspection (SPI) firewall
Width	243 mm
Depth	45 mm
Security algorithms	128-bit AES
Input current	2 A
Storage temperature (T-T)	0 – 70 °C
Rack mounting	No
VPN tunnels quantity	25
USB ports quantity	2
Humidity measurement range	10 – 85%
Quick start guide	Yes
VPN support	IPsec, L2TP, DPD, DNS
Networking standards	IEEE 802.1Q
Ethernet LAN (RJ-45) ports	16
IFU / User manual	Yes

DC-in jack	Yes
Operating temperature (T-T)	0 – 40 °C
AC adapter included	Yes
Cabling technology	10/100/1000Base-T(X)
Quality of Service (QoS) support	Yes
Supported network protocols	IPv4, IPv6, Static IP, PPPoE, PPTP, DNS, DynDNS
Ethernet interface type	Gigabit Ethernet
Management protocols	SNMPv1/v2c/v3, Bonjour
Firmware upgradeable	Yes
Web-based management	Yes
On/off switch	Yes
Ethernet LAN	Yes
Fast Ethernet (copper) ports quantity	2
Gigabit Ethernet (copper) ports quantity	14
System event log	Yes
USB version	2.0
Product colour	Black
Network address translation (NAT)	Yes
DMZ support	Yes
Ethernet WAN	Yes
DHCP client	Yes
DHCP server	Yes

Full product description

Cisco RV325-K9-G5 - a router designed for small businesses

Cisco RV325-K9-G5 is a business-class router that complements a series of devices dedicated to small businesses. This router is equipped with **10/100/1000Base-T(X)** cabling technology ensuring data transfer rate of **1000Mb/s**. Cisco RV325-K9-G5 is also equipped with 16 Ethernet LAN ports (RJ-45), 2 USB type 2.0 ports, two WAN ports (one WAN port and one DMZ/WAN port) and a DC output socket.

Performance, flexibility and security - in one router

Cisco RV325 is the perfect choice for companies that need a combination of performance, safety, reliability and flexibility. Dual Gigabit Ethernet WAN ports can be connected to a single service provider to provide an efficient network, with load balancing. And with the proven **SPI** firewall and **hardware encryption**, business-class security is assured.

Simple configuration

An intuitive, browser-based **device manager and configuration wizard** make setting up a device to your needs in just a few minutes. The product can also easily handle **manage of large files**, keeping your employees' productivity on an equal - high level.

A secure network for employees

Your company and its employees are exposed to phishing, keyloggers, spyware, drive-by malware and other online threats. With new models with **website filtering** you can protect your employees and users from unwanted content. You will eliminate unwanted traffic, **increase productivity** and protect against malicious websites in a **automatic way**.

The heart of your company

Network connectivity is at the heart of every small business, and **secure access, firewall and high performance** are at the heart of every Cisco®Small Business RV Series router. The Cisco RV325 router is no exception. It has intuitive user interfaces so it is ready to work in just a few minutes. This powerful router provides reliable, highly secure connectivity for you and your employees.
