Price: **897.19 zł** gross / 729.42 zł net

Manufacturer: CISCO

Referention number: DNXXGOMPERMMKP

Product features

Storage relative humidity (H-H)	10 - 90%
LED indicators	Activity
Security algorithms	802.1x RADIUS
Virtual LAN features	MAC address-based VLAN
Storage temperature (T-T)	-20 to 70 °C
Cables included	AC
Rack mounting	Yes
IPv4 & IPv6 features	Dual stack IPv4/IPv6
Mounting brackets included	Yes
Rate limiting	Yes
Authentication type	IEEE 802.1x
Humidity measurement range	10 - 90%
Neighbor Discovery Protocol (ND) entries	2461
Harmonized System (HS) code	85176990
Quick start guide	Yes
Networking standards	IEEE 802.1D
Switch type	Managed
Traffic classification	Yes
10G support	No
ARP inspection	Yes
SSH/SSL support	Yes
Spanning tree protocol	Yes

Head-of-line (HOL) blocking	Yes
Broadcast storm control	Yes
Operating temperature (T-T)	0 - 40 °C
AC adapter included	Yes
Quality of Service (QoS) support	Yes
Link aggregation	Yes
Reset button	Yes
IGMP snooping	Yes
IP routing	Yes
Web-based management	Yes
Flow control support	Yes
Port mirroring	Yes
Traffic shaping	Yes
Jumbo frames	9216
Jumbo frames support	Yes
Power over Ethernet (PoE)	Yes
AC input frequency	50 Hz
AC input voltage	110 V
DHCP features	DHCP client
Product colour	Black
Switch layer	L2+/L3
Access Control List (ACL)	Yes
Path MTU discovery	Yes
Multicast support	Yes
Basic switching RJ-45 Ethernet ports type	Fast Ethernet (10/100)
Basic switching RJ-45 Ethernet ports quantity	24

Full product description

Cisco SF350-24P - 24-port PoE Fast Ethernet switch - 350 series

SF350-24P switch is equipped with **24 RJ45 ports with 100 Mbps throughput and PoE** support, 2 Gigabit Combo ports (RJ45/SFP) and 2 SFP fiber optic ports (1 Gb/s). The device can be managed and configured with a graphic Web interface and a CLI text console.

High performance and failure-free

The switch has a throughput of **9.52 million packets per second (64-byte packets)** and a switching capacity of **12.8 Gb/s**. Presented model is equipped with 24 ports with PoE power supply. The total power budget of **PoE is 185 W**. The Cisco switch is covered by a limited, lifetime manufacturer's warranty.

Cisco Switches - 350 series

The Cisco 350 series is part of the network solutions included in **Cisco Small Business**. It is a line of attractively priced managed switches, which are the base for business networks. They provide information in a more efficient way, provide features that improve the availability of business applications, protect confidential data and optimize network capacity. Easy to set up and use, the affordable Cisco 350 series enhances capabilities and helps create more efficient computer networks, especially for small businesses.

Cisco 350 Series is a wide range of manageable Ethernet switches. The models in this series are equipped with The range from 8 to 48 Fast Ethernet ports and 10 to 52 Gigabit Ethernet ports, which guarantees companies the optimum flexibility needed to build a solid network foundation. **The Cisco 350 series of switches** support advanced security management and network functions for sensitive business data. They are easy to deploy and configure, so there are no difficulties in using the network services needed in any business.

Business applications for Cisco devices

Whether you are building a basic high-performance network to connect employees' computers or need solutions to provide data, voice and video services, the Cisco 350 series of switches will meet all of these needs, and the features of possible deployment scenarios are:

- Secure wireless connectivity - With advanced security features, Power over Ethernet, Auto Smartports, QoS, VLAN, and access control, the Cisco 350 Series switches are the perfect foundation for building a business-class wireless network.
- Unified communication - As a managed network solution, the Cisco 350 series provides performance and advanced traffic management technology when delivering communication and data over a single network. Cisco offers a full range of IP telephony and other unified communications products for the enterprise. The Cisco 350 series switches have been rigorously tested to ensure easy integration and full compatibility with multiple products to provide comprehensive business solutions.
- Highly secure guest connectivity - The Cisco 350 Series allows you to extend secure guest connectivity in a variety of configurations, such as a hotel, office waiting room or other open area for unattended users. With powerful but easy-to-configure security features and traffic segmentation, you can isolate business traffic from guest services and keep your network sessions private.
- Securely connect computers - Cisco 350 Series switches can easily and securely connect small office staff, all servers, printers and other devices used by employees. High performance and reliable connectivity help speed up file transfer and data processing, increasing uptime on the network and maintaining constant contact between employees.
