Price: **1,563.08 zł** gross / 1,270.80 zł net

Manufacturer: CISCO

Referention number: DNXGFOMPMRNIH

Product features

Storage relative humidity (H-H)	10 - 90%
Height	44 mm
LED indicators	Activity
Width	440 mm
Depth	350 mm
Security algorithms	802.1x RADIUS
Mean time between failures (MTBF)	182270 h
Virtual LAN features	Port-based VLAN
Packet buffer memory	3 MB
Storage temperature (T-T)	-20 to 70 °C
Cables included	AC
Mounting brackets included	Yes
Rate limiting	Yes
Power consumption (typical)	52.1 W
Humidity measurement range	10 - 90%
Harmonized System (HS) code	85176990
DIN rail mounting	Yes
Switching capacity	17.6 Gb/s
Quick start guide	Yes
Networking standards	IEEE 802.1ab
Switch type	Managed
Traffic classification	Yes

10G support	No
BPDU filtering/protection	Yes
Authentication	Port-based authentication
Access Control List (ACL) rules	512
ARP inspection	Yes
Active link detection	Yes
Cable length detection	Yes
SSH/SSL support	Yes
Flash memory	256 MB
Number of VLANs	4094
Spanning tree protocol	Yes
Head-of-line (HOL) blocking	Yes
Broadcast storm control	Yes
Static port security	Yes
Operating temperature (T-T)	0 - 50 °C
Heat dissipation	409.96 British thermal unit per hour
AC adapter included	Yes
Quality of Service (QoS) support	Yes
VLAN support	Yes
Link aggregation	Yes
Total Power over Ethernet (PoE) budget	382 W
Reset button	Yes
Firmware upgradeable	Yes
Routing entries	512
IGMP snooping	Yes
IP routing	Yes
Web-based management	Yes
Fiber optic connector	SFP+
Flow control support	Yes
Port mirroring	Yes
Noise level	55 decibel
Traffic shaping	Yes
Jumbo frames	9216
Jumbo frames support	Yes
MAC address table	16384 entries
Power supply included	Yes
Power over Ethernet (PoE) ports quantity	48
Power over Ethernet (PoE)	Yes
Internal memory	512 MB
Number of IP interfaces	128
SFP module slots quantity	2
Number of static routes	512
AC input frequency	50 Hz
Number of queues	8
AC input voltage	110 V
Gigabit Ethernet (copper) ports quantity	2
DHCP features	DHCP client
Number of multicast groups filtered	1000

Copper ethernet cabling technology	1000BASE-T
Product colour	Black
Switch layer	L2+/L3
IP-MAC-Port binding	Yes
Access Control List (ACL)	Yes
Multicast support	Yes
Fiber ethernet cabling technology	1000BASE-LH
Basic switching RJ-45 Ethernet ports type	Fast Ethernet (10/100)
Basic switching RJ-45 Ethernet ports quantity	48
Product weight	5590 g

Full product description

Cisco SF350-48P - 48-port PoE Fast Ethernet switch - 350 series

The SF350-48P has **48 100 Mbps RJ45 ports with PoE** support, 2 Gigabit Combo (RJ45/SFP) and 2 SFP fiber optic (1 Gb/s) ports. The device can be managed and configured with a graphic Web interface and a CLI text console.

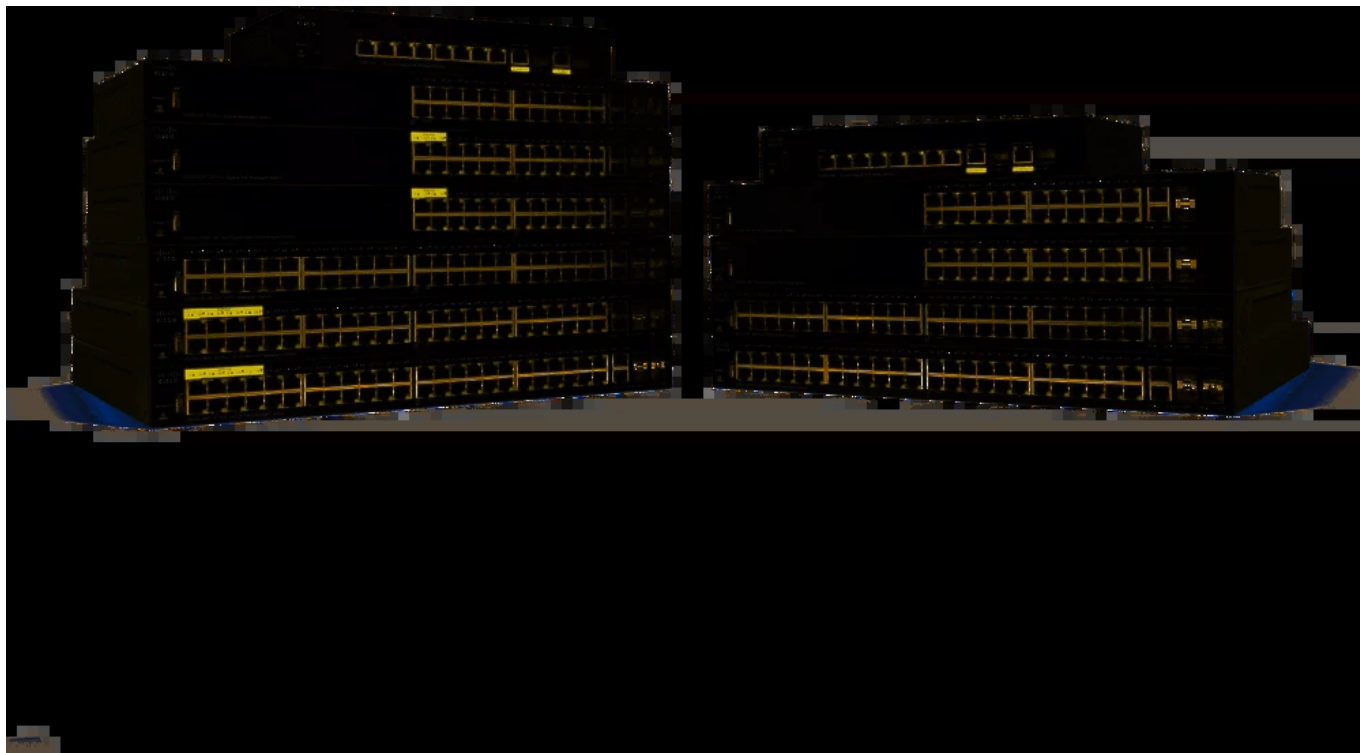

High performance and failure-free

The switch has a throughput of **13.09 million packets per second (64-byte packets)** and a switching capacity of **17.6 Gb/s**. The presented model is equipped with 48 ports with PoE power and the total power budget of **PoE is 328 W**. The Cisco switch comes with a limited, lifetime manufacturer's warranty.

Cisco Switches - 350 series

The Cisco 350 series is part of the network solutions included in **Cisco Small Business**. It is a line of attractively priced managed switches, which are the base for business networks. They provide information in a more efficient way, provide features that improve the availability of business applications, protect confidential data and optimize network capacity. Easy to set up and use, the affordable Cisco 350 series enhances capabilities and helps create more efficient computer networks, especially for small businesses.

Cisco 350 Series is a wide range of manageable Ethernet switches. The models in this series are equipped with **from 8 to 48 Fast Ethernet ports and from 10 to 52 Gigabit Ethernet** ports, which guarantees companies the optimum flexibility needed to build a solid network foundation. **The Cisco 350 series of switches** support advanced security management and network functions for sensitive business data. They are easy to deploy and configure, so there are no difficulties in using the network services needed in any business.

Business applications for Cisco devices

Whether you are building a basic high-performance network to connect employees' computers or need solutions to provide data, voice and video services, the Cisco 350 series of switches will meet all of these needs, and the features of possible deployment scenarios are:

- Secure wireless connectivity - With advanced security features, Power over Ethernet, Auto Smartports, QoS, VLAN, and access control, the Cisco 350 Series switches are the perfect foundation for building a business-class wireless network.
- Unified communication - As a managed network solution, the Cisco 350 series provides performance and advanced traffic management technology when delivering communication and data over a single network. Cisco offers a full range of IP telephony and other unified communications products for the enterprise. The Cisco 350 series switches have been rigorously tested to ensure easy integration and full compatibility with multiple products to provide comprehensive business solutions.
- Highly secure guest connectivity - The Cisco 350 Series allows you to extend secure guest connectivity in a variety of configurations, such as a hotel, office waiting room or other open area for unattended users. With powerful but easy-to-configure security features and traffic segmentation, you can isolate business traffic from guest services and keep your network sessions private.
- Securely connect computers - Cisco 350 Series switches can easily and securely connect small office staff, all servers, printers and other devices used by employees. High performance and reliable connectivity help speed up file transfer and data processing, increasing uptime on the network and maintaining constant contact between employees.
