Manufacturer: EXTRALINK

Referention number: DNXGHIISKRMMNJ

### Information:

Extralink 21747 is a practical 2-in-1 laser level with a built-in 250 cm tape measure, allowing you to mark lines and measure distances at the same time. The tape measure has two scales: centimetres and feet, which makes installation, finishing and carpentry work easier. The red laser helps quickly set horizontal and vertical lines, and one-button operation increases ease of use. The compact 18 × 6 × 3 cm design and low weight of 175 g make the tool easy to carry. LR44 battery power ensures mobility, and the batteries are included in the set.

### Full product description

### Measurement in one tool

Extralink 21747 combines the function of a laser level with a built-in 250 cm tape measure. It enables line marking and distance measurement during installation, finishing and carpentry work without the need to use several separate tools.

## **Tape measure with two scales**

The built-in tape measure offers a measuring range of up to 250 cm and a scale in centimetres and feet. It allows you to quickly measure the required lengths when setting up equipment, preparing materials or carrying out minor renovation work.

## **Red laser**

The built-in red laser enables you to mark horizontal and vertical lines. Operation via a button makes it easier to align shelves, frames, furniture components and other items that require a straight line.

## Handy design

The level measures 18 × 6 × 3 cm and weighs 175 g, so it fits easily in a bag or toolbox. Power from LR44 batteries means you can use the device without a cable, and the required batteries are included in the set.
