Manufacturer: DELL

Referention number: DNXGGIIRIMMKI

Information:

Dell E2220H is a compact 21.5" Full HD monitor designed for comfortable work on smaller desks. Thin bezels, a TN panel, 1920 × 1080 resolution and support for 16.7 million colours provide a clear image for work, training videos and webinars. The anti-reflective coating and ComfortView function reduce glare and blue light emission, increasing eye comfort during long working sessions. Wide 170°/160° viewing angles make it easier to use the monitor from different positions. DELL Display Manager helps you organise windows more effectively and speeds up everyday tasks. The monitor offers DisplayPort and VGA connectors.

Full product description

DELL E2220H MONITOR 21.5" TN FULL HD 1X DP, 1X VGA (210-AUXD)

A friendly monitor for work, it will be perfect for smaller desks where you do not have a lot of space. **21.5 inches** allows you to work peacefully and focus on the task at hand. And the thin bezels will give you the impression of a larger screen. Thanks to the image in **Full HD 1920 × 1080** resolution with **16.7 million colors** and **IPS matrix** you will easily watch a training film or a webinar with a full depth of colors.

A comfortable screen for your eyes

When choosing a monitor, it is worth to pay attention to the protective filters and built-in features that will support your eyesight and thanks to which your spine will not suffer even during long hours of work. The **anti-reflective coating** will protect you from unwanted **reflections** while working. In addition, **ComfortView** will **reduce the blue light** that tires your eyes. Moreover, the viewing angle is quite satisfactory **170 degrees horizontally and 160 degrees vertically**. Thus, you will be able to change your position while working and still see what is on the monitor screen without any problems.

You will gain a lot of space on your desk

Thanks to its small size, this monitor will fit even on a smaller desk. The **width oscillates around 51 cm**, so you will still have some space. For more space, choose a wireless mouse and keyboard to avoid clutter and fiddling with cables. The full **depth with stand is only 17 cm**, so you'll still have room for the documents you need or a *docking station* to connect additional devices you need for work.

Small, but can do a lot

With **DELL Display Manager** software, you'll be able to take your productivity to a whole new level. The **38 different lay** outs of applications on the screen allow you to work in them on the fly. You can place up to **5 windows** at a time, reducing your working time. In addition, the monitor remembers what you were working on last, so you can quickly return to the task at hand immediately after turning on the computer. Also practical keyboard shortcuts allow you to adjust the screen to your needs, also improving your work.
