Price: **607.84 zł** gross / 494.18 zł net

Manufacturer: DELL

Referention number: DNXXGIMNHRMMIP

Product features

Response time	8 ms
Panel type	IPS
VESA mounting	Yes
Screen shape	Flat
High Dynamic Range (HDR) supported	No
Maximum refresh rate	60 Hz
HDMI	No
Resolution	1920 pixels
Display diagonal (metric)	60.5 cm
Cables included	DisplayPort
Display technology	LCD
Power supply type	Internal
Power consumption (max)	28 W
Display number of colours	16.7 million colours
European Product Registry for Energy Labelling (EPREL) code	741809
Power consumption (typical)	16 W
Humidity measurement range	10 - 80%
Harmonized System (HS) code	85285210
Low Blue Light technology	Yes
Touchscreen	No
Pixel density	93 ppi
Tilt adjustment	Yes

Backlight type	LED
Power consumption (off)	0.3 W
Headphone out	No
Power consumption (standby)	0.3 W
Operating temperature (T-T)	0 - 40 °C
Weight (with stand)	4030 g
Stand included	Yes
Sustainability certificates	ENERGY STAR
VGA (D-Sub) ports quantity	1
Cable lock slot	Yes
Built-in camera	No
Energy consumption (SDR) per 1000 hours	16 kWh
Display diagonal	23.8 "
Energy efficiency class (HDR)	Not available
Energy efficiency class (SDR)	E
Height adjustment	No
Height (with stand)	420.35 mm
Contrast ratio (typical)	1000:1
Depth (with stand)	171 mm
Wi-Fi	No
Width (with stand)	552.64 mm
AC input frequency	50 Hz
AC input voltage	100 V
Built-in speaker(s)	No
Anti-glare screen	Yes
Native aspect ratio	16:9
DisplayPort version	1.2
DisplayPorts quantity	1
HD type	Full HD+
Market positioning	Business
Tilt angle range	-5 °
Product colour	Black
Swivelling	No
Pivot	No
Weight (without stand)	3200 g
Height (without stand)	331.61 mm
Depth (without stand)	49.69 mm
Width (without stand)	552.64 mm
Panel mounting interface	100 mm
Viewing angle, vertical	178 °
Viewing angle, horizontal	178 °
Response time (fast)	5 ms
AC (power) in	Yes
Front bezel colour	Black
Display brightness (typical)	250 cd/m2
Flicker-free technology	Yes
Component video sync	Sync-on-green (SOG)
Built-in USB hub	No

Full product description

DELL E2422H MONITOR 23.8" IPS FULL HD 1X DP, 1X VGA (210-BBMC)

Practical **23.8 inches** monitor with a wide viewing angle of **178/178 degrees** and a **resolution of Full HD (1080p) 1920 × 1080** with **60 Hz**. It works very well in the home office as well as in business thanks to the **IPS matrix**. It does not take up much space, which gives you plenty of room to work. It can handle most of the programs, including basic graphics programs, thanks to the support of **16.7 million colors**. It weighs only **4 kg**, so you can easily move it from desk to desk if necessary.

Comfort for the eyes and comfort for the back

ComfortView software is a very good solution that DELL has used in their monitors. It will significantly reduce the blue light emitted from the monitor, so your eyes will not be so tired even after working in front of the screen for a longer time. In addition, the **anti-reflective coating** will help you avoid unpleasant glare that could irritate your eyes. In addition, a wide viewing angle (**178 degrees horizontally and vertically**) allows you to work in different positions. You can also adjust the height and curvature of the screen, so even long hours of work at the computer will not give you unpleasant muscle cramps.

Boost your productivity with DELL Display Manager

If you want to increase your productivity and reduce the time you spend working on a project, then **Display Manager** will help you a lot. You can divide the screen into 5 parallel parts, where you will have the most important applications open at all times. There are **38 ready-made templates** at your disposal, which you can use freely. Choose the one that best suits your needs and work more efficiently. In addition, the monitor remembers your settings even after you disconnect it. This will **save you time** searching and restarting applications. You'll be able to get back to your project as soon as you turn on your computer.

Practical and designer construction

This small yet **stable stand** will allow you to position your monitor where you intend to work. It is stable enough that you are not at risk of the screen wobbling or tilting. In addition, the **thin** bezel gives not only the delicacy of the screen, but also makes the visual impression of a larger screen than it really is. By choosing a wireless keyboard and mouse you will save yourself from cables on your desk, and your workspace will become fully minimalist and you will be able to focus 100% on the project.
