Price: **950.00 zł** gross / 772.36 zł net

Manufacturer: DELL

Referention number: DNXXGGIOJJRMMIP

Product features

Response time	1 ms
Panel type	TN
VESA mounting	Yes
Screen shape	Flat
Maximum refresh rate	144 Hz
HDMI	Yes
Resolution	1920 pixels
Display technology	LCD
Power consumption (max)	45 W
Display number of colours	16.78 million colours
Package weight	7550 g
European Product Registry for Energy Labelling (EPREL) code	344900
Power consumption (typical)	17.1 W
Humidity measurement range	10 – 80%
AMD FreeSync	Yes
Touchscreen	No
Pixel density	93 ppi
Tilt adjustment	Yes
Backlight type	LED
Power consumption (off)	0.2 W
Headphone out	Yes
Power consumption (standby)	0.2 W

Operating temperature (T-T)	0 – 40 °C
Package depth	717.8 mm
Package height	404.88 mm
Package width	139.95 mm
Built-in camera	No
Energy consumption (SDR) per 1000 hours	17 kWh
Display diagonal	23.8 "
Energy efficiency class (SDR)	E
Height adjustment	Yes
Height (with stand)	322.58 mm
Contrast ratio (typical)	1000:1
Energy efficiency scale	A to G
Depth (with stand)	190.5 mm
Width (with stand)	538.48 mm
AC input frequency	50 Hz
AC input voltage	100 V
Built-in speaker(s)	No
HDMI ports quantity	2
Native aspect ratio	16:9
Image format	16:9
DisplayPorts quantity	1
HD type	Full HD+
Tilt angle range	-5 °
Product colour	Black
Adjustable height (max)	100 mm
Weight (without stand)	3356.58 g
Height (without stand)	322.58 mm
Depth (without stand)	66.04 mm
Width (without stand)	538.48 mm
Viewing angle, vertical	160 °
Viewing angle, horizontal	170 °
Display brightness (typical)	350 cd/m2

Full product description

DELL S2421HGF MONITOR 23.8" TN FULL HD 144HZ 1X DP, 2X HDMI (210-AWMG)

The DELL monitor was created for gamers who switched from consoles or Xbox to PC. The **23.8-inch** screen has **an anti-reflective coating**, which is ideal for gamers during prolonged periods of staring at the monitor. The resolution is really good and oscillates at **Full HD 1920 x 1080** with **144 Hz**, so the image will run smoothly.

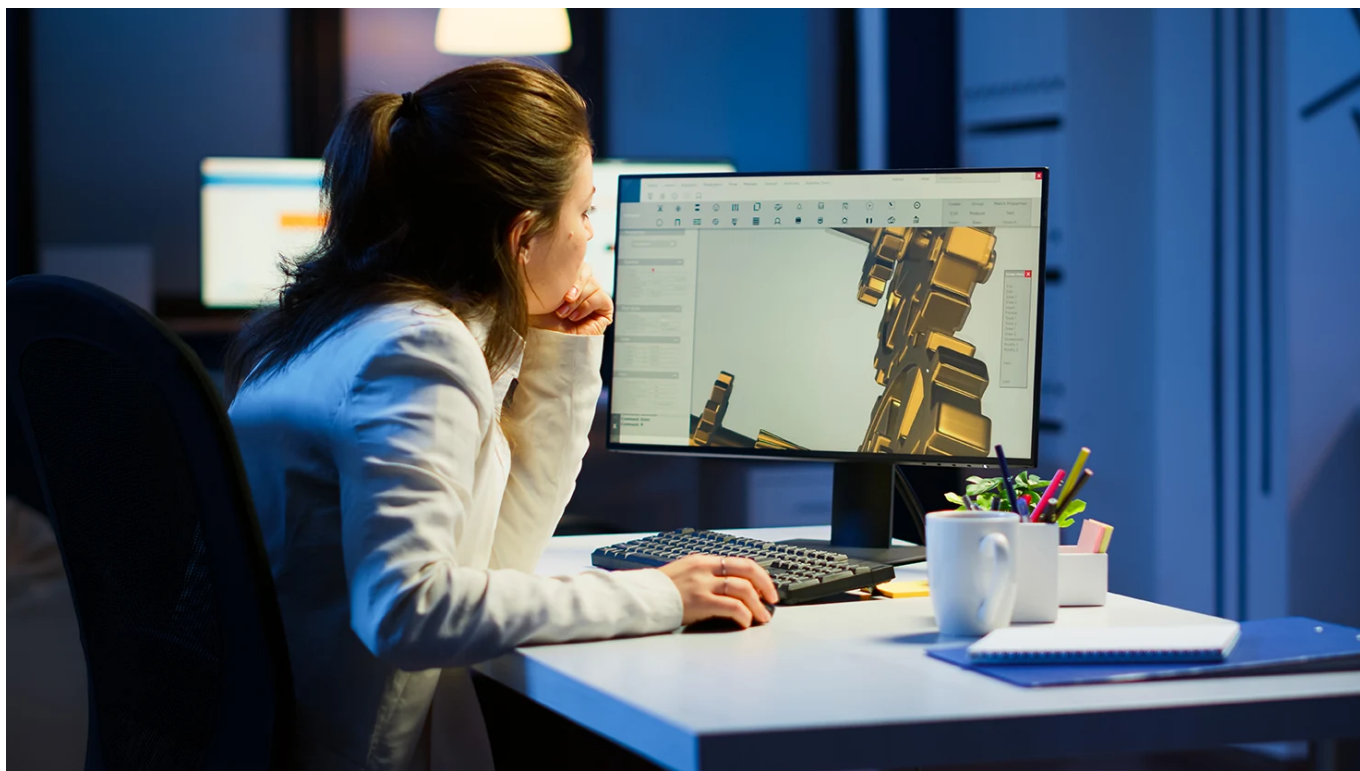

Speed matters

The response time of the **Tn matrix** oscillates at **1 ms** with a **refresh rate of 144 Hz**. This provides an extremely smooth gaming experience that any gamer will appreciate. The fast pixel speed gives you the freedom to play without any blurring. Thanks to the fact that the monitor is compatible with **NVIDIA G-SYNC** technology (known for supersynchronization) and **AMD FreeSync** technology, there is no framerate effect here even when playing dynamic games. You can focus on your gameplay with the confidence of consistent high image quality without worry. In addition, the **Full HD** resolution is the assurance of a sharp image, where you can find the smallest of elements without worry. So you can choose to play a longer game in which searching for trophies will not be a hassle.

Play as you are comfortable

We understand that while gaming time flies by, so the monitor is equipped with a system that allows you to **adjust the height and angle of the monitor**. Sitting in one position for long periods of time is not good for your spine, so the **ability to adjust the screen** is extremely beneficial in finding the optimal gaming position. You will ensure comfort while playing the game, which will allow you to achieve better results. The monitor is also equipped with **anti-reflective coating** that protects your eyes from glare and other eye irritations. In addition, an easily accessible joystick lets you quickly adjust the brightness and contrast to suit your needs. **Also the darkness stabilizer** is a very practical solution in terms of managing the number of frames or brightness.

Powerful in action and delicate in design

The monitor is equipped with a lot of practical features, which does not mean that the device has to look clumsy. DELL decided to use a **modern design of the monitor**, which is a great advantage. Moreover, and most importantly, the monitor has an extremely **thin bezel**, which provides you with a greater comfort of play and most importantly gives you a larger field of view. Also worth mentioning are the ventilation holes, located on the back of the monitor, so you don't have to worry about the screen overheating.
