Introducing **the Dell Full HD 24-inch monitor** that offers a wide color range, fast data transfer and improved productivity. Equipped with **ComfortView Plus**, which reduces blue light emissions and ensures brilliant colors.

Vivid colors with IPS technology

A 23.8-inch monitor with **excellent image sharpness and Full HD resolution** on a **1920x1080** display is able to offer us more display details. The Dell U2422H monitor is armed with a wide color range: **100% sRGB, 100% Rec.709 and 85% DCI-P3**. IPS technology - **consistent colors and consistent display quality** across a wide 178/178° viewing angle.

Clear view and better productivity

A larger display area, all with virtually bezel-less **InfinityEdge technology**. The ultra-thin bezel on 4 sides allows for a crisp edge-to-edge image. You can also connect multiple monitors in series. Interestingly, using two monitors **increases productivity by up to 21%**. Multiple connected monitors can be configured and synchronized using on-screen menu (OSD) settings on a single monitor.

Infinite connectivity and transfer options

Connect devices **easily and quickly** with **DP, HDMI and Super Speed USB 10Gbps** ports. The quick access ports that are located on the front of the monitor allow you to conveniently connect peripherals and charge cell phones. These ports make data transfer between your computer and peripherals connected to the monitor more efficient.

Style that won't let you down

The U2422H monitor has a **premium silver and platinum** finish . It also has a **small stand and a design** that hides cables in the monitor bracket to keep your desk tidy. Navigate and adjust the monitor's screen settings with the easy-to-use joystick.

Functionality and fit

You can adjust the tilt, vertical and horizontal rotation, and height (up to a maximum of 150 mm) for optimal viewing comfort.

Dell Display Manager

Easy Arrange lets you quickly customize and set up applications on multiple screens, Auto-Restore remembers the layout of windows and applications when you stop working, plus advanced reports allow IT staff to **quickly capture information about monitors** and **set up multiple screens simultaneously**.
