Full product description

Unique colors

Get wide color coverage with **95% DCI-P3** - which covers about 25% more color space than sRGB - for true color reproduction. This monitor also offers 99% sRGB and 99% Rec 709 color coverage. With exceptional color depth, excellent peak brightness and a 1000:1 contrast ratio, images are displayed in true color. Be prepared for better color gradation and accuracy in more hues on this **VESA DisplayHDR™ 400** monitor.

Striking clarity

The **Dell U2520D monitor** is factory calibrated to 99% sRGB with a Delta-E accuracy of less than 2, ensuring accurate colors right from the start. See fine detail with QHD (2560 X 1440) resolution with a high pixel density of 117.5ppi.

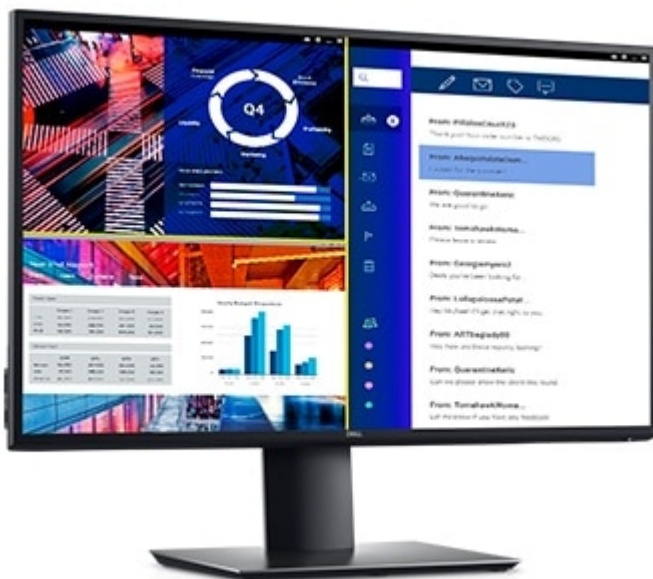

Quick start

Experience the world's most convenient 25" QHD USB-C multi-display setup. **Dell Express Daisy Chaining** enables automatic detection of a second display, skipping the manual step of changing OSD settings. Conveniently located, quick-access side ports allow you to easily charge and connect various devices, all while reducing cable clutter.

Performance at every level

The **Dell Display Manager (DDM) Easy Arrange feature** lets you quickly tile and display applications side-by-side on one or more connected screens for efficient multitasking. And with the enhanced DDM, you'll get even more preset layouts. With support for multiple operating systems, **Dell Display Manager** helps you stay productive no matter how you work.

Seamless transitions

The auto-restore function remembers where you left off, so your applications will return to where you left them, even when you unplug. Shortcut keys can save you even more time by allowing you to easily configure display management settings, so you can get to work faster.

Flexibility for all-day comfort

Work with an unobstructed view across multiple screens with this virtually borderless design. And you can increase productivity by up to 21% when using Dell's dual monitor configuration. With the ability to tilt, swivel and adjust the height of the monitor to suit your needs, you can stay comfortable all day long.
