Full product description

DELL E2722H MONITOR 27" IPS FULL HD 1X VGA, 1X DP (210-BBRO)

The 27-inch monitor is a monitor that is great for home and office use regardless of your desk height. The mounting brackets included with the monitor to allow you to adjust the height of the screen.

Full HD panel with **1920 × 1080** resolution at 60 Hz. The DELL LCD monitor features LED backlighting, making it easy to work late in the afternoon or evening. When operating basic graphics programs, you won't have problems because the monitor supports **16.7 million colors**.

Safe for your eyes

The 27-inch monitor is equipped with **IPS** technology, which ensures vivid colors and high image quality with a wide viewing angle of up to **178 degrees**. **FHD sharpness** ensures that even prolonged work with the monitor will not give you pain or burning eyes. With **ComfortView** software your eyes will thank you. It reduces excess blue light. In addition, the **anti-reflective coating** prevents glare from irritating your eyes. In addition, the monitor is equipped with a **flicker-free function**, so fatigue will not quickly get to you while working with this screen.

Get more space on your desk

The monitor connects to systems through a **VGA** and **DP port**. The minimalist design allows for more space on your desk. In addition, the **solid stand** provides stability, so it will not wobble while you work. In addition, the **thin** bezel allows you to enjoy the full screen experience, so whether you're watching a movie or working with several files rubbed together, you can focus on what's important to you.

Increase your productivity with Display Manager

Thanks to **EasyArrange** function you are able to open windows of several applications on available monitors. You will have up to 38 layouts at your disposal. You can personalize 5 windows without much hassle, making your work much easier. If you want to start where you left off, it's no problem. The auto transition feature will remember your open window layout and allow you to move on. This is an extremely beneficial option, especially since it works even when the monitor is disconnected. Available keyboard shortcuts to speed up your tasks is also another one of the pluses.
