Full product description

DELL E2722HS MONITOR 27" IPS FULL HD 1X HDMI, 1X VGA, 1X DP (210-BBRP)

Practical **27-inch** monitor is very well suited for home office as well as business. **Full HD (1080p) resolution of 1920 × 1080** on the **IPS matrix** and support for **16.7 million colors** will easily handle most applications, including basic graphics programs. The monitor weighs just over **5 kg**, so without much effort you can move it to another room when the need arises.

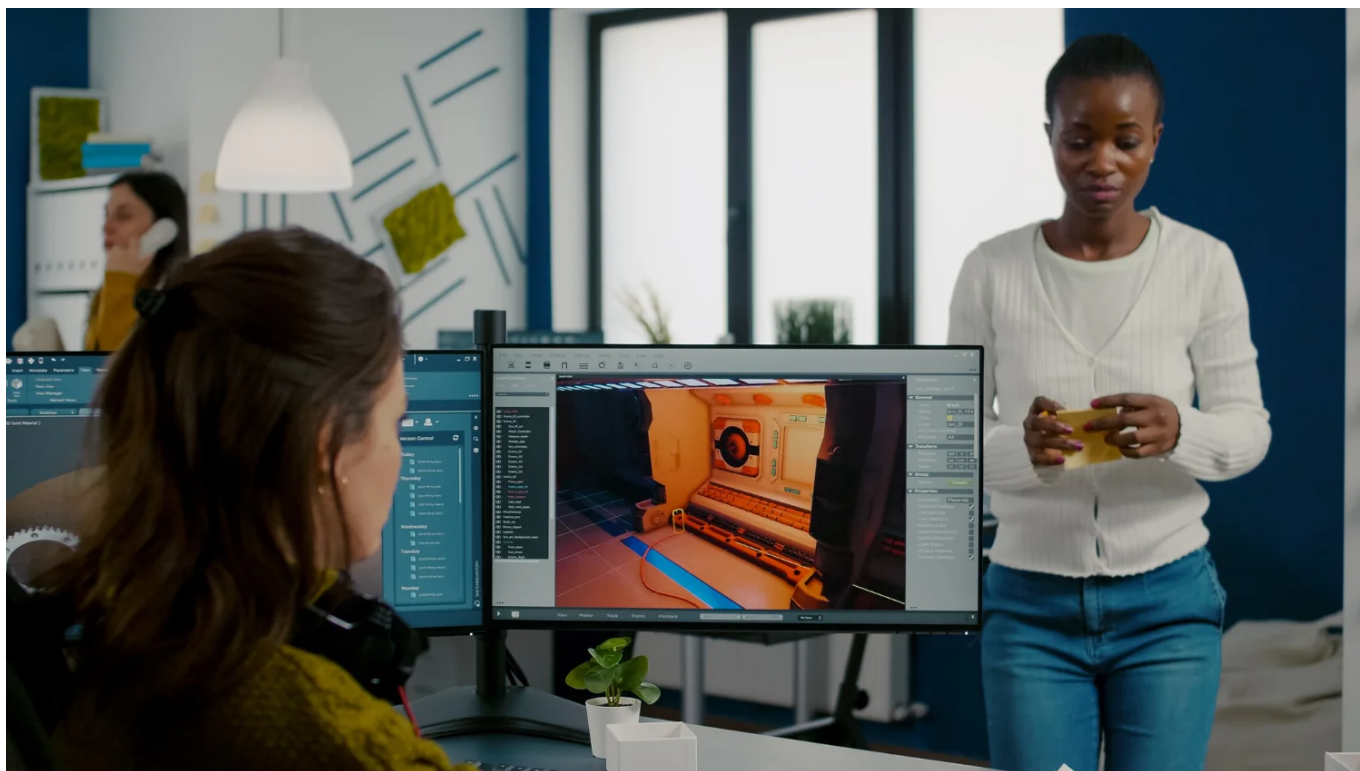

Give yourself the best and the healthiest

The anti-reflective coating used on the monitor screen is an extremely big plus because it protects against unwanted and irritating reflections while working. In addition **ComfortView** provides a significant **reduction in blue light**, which is good for your eyes. Even after prolonged work with the monitor they will not be so tired and dry. Comfortable position of your back is also an important aspect, that's why DELL gives you the opportunity to **adjust the monitor's position** to fit your needs. Moreover, wide **viewing angle of 178/178 degrees** will make you see what is on the screen without any worries.

Space matters

The compact stand and the depth of the monitor - with stand - is only 20 cm. You can easily position it to get the most space on your desk. In addition, opt for a wireless keyboard and also a wireless mouse, and it will give you extra free space. If you need to have several devices around you, hook them up to a docking station so you can work on a second monitor or connect an external drive or printer if necessary. By adjusting the position of the monitor you can maneuver a bit and gain additional space, for example under the screen.

Reduce your work time through efficiency with DELL

DELL gives you the perfect opportunity to increase your efficiency and productivity with **DELL Display Manager** software. Thanks to the **EasyArrange feature**, you will have at your disposal **38 ready-made layouts**, which you can customize according to your requirements and needs. You can open and personalize up to 5 windows, which will significantly simplify and shorten your work. Moreover, keyboard shortcuts allow you to set all screen functions and get to work extremely quickly. You will also miss finding and restarting the necessary applications you are working on. Even when disconnected, the monitor will remember the last layout and when you turn the computer on it will be fully ready to work.
