Price: **1,149.00 zł** gross / 934.15 zł net

Manufacturer: DELL

Referention number: DNXGGIPLRMMJ

### Product features

|                                     |                |
|-------------------------------------|----------------|
| Storage relative humidity (H-H)     | 5 - 90%        |
| Non-operating altitude              | 0 - 12192 m    |
| LED indicators                      | Power          |
| Response time                       | 8 ms           |
| Panel type                          | IPS            |
| Colour depth                        | 6 bit          |
| VESA mounting                       | Yes            |
| Screen shape                        | Flat           |
| High Dynamic Range (HDR) supported  | No             |
| sRGB coverage (typical)             | 99 %           |
| Maximum refresh rate                | 60 Hz          |
| Total carbon footprint (kg of CO2e) | 517            |
| HDMI                                | Yes            |
| Resolution                          | 1920 pixels    |
| HDCP                                | Yes            |
| Display diagonal (metric)           | 68.6 cm        |
| Storage temperature (T-T)           | -20 °C - 60 °C |
| Cables included                     | AC             |
| Compliance certificates             | RoHS           |
| Display technology                  | LCD            |
| Power supply type                   | Internal       |
| Power consumption (max)             | 55 W           |

|                                                             |                       |
|-------------------------------------------------------------|-----------------------|
| Display number of colours                                   | 16.7 million colours  |
| European Product Registry for Energy Labelling (EPREL) code | 545529                |
| Heavy metals free                                           | Hg (mercury)          |
| Power consumption (typical)                                 | 15 W                  |
| Humidity measurement range                                  | 10 - 80%              |
| Horizontal scan range                                       | 30 kHz                |
| Harmonized System (HS) code                                 | 85285210              |
| Low Blue Light technology                                   | Yes                   |
| Touchscreen                                                 | No                    |
| Quick start guide                                           | Yes                   |
| Pixel density                                               | 102 ppi               |
| Tilt adjustment                                             | Yes                   |
| Backlight type                                              | LED                   |
| Power consumption (off)                                     | 0.2 W                 |
| Headphone out                                               | No                    |
| Power consumption (standby)                                 | 0.2 W                 |
| Plug and Play                                               | Yes                   |
| Operating temperature (T-T)                                 | 0 - 40 °C             |
| Vertical scan range                                         | 50 Hz                 |
| Weight (with stand)                                         | 6770 g                |
| Operating altitude                                          | 0 m                   |
| Stand included                                              | Yes                   |
| Sustainability certificates                                 | ENERGY STAR           |
| Supported graphics resolutions                              | 1920 x 1080 (HD 1080) |
| VGA (D-Sub) ports quantity                                  | 1                     |
| Doesn't contain                                             | PVC/BFR               |
| Cable lock slot                                             | Yes                   |
| Built-in camera                                             | No                    |
| Swivel angle range                                          | -45 °                 |
| Energy consumption (SDR) per 1000 hours                     | 15 kWh                |
| Display diagonal                                            | 27 "                  |
| Energy efficiency class (HDR)                               | Not available         |
| Energy efficiency class (SDR)                               | D                     |
| Height adjustment                                           | Yes                   |
| Height (with stand)                                         | 384.15 mm             |
| Contrast ratio (typical)                                    | 1000:1                |
| Energy efficiency scale                                     | A to G                |
| Depth (with stand)                                          | 190.1 mm              |
| Wi-Fi                                                       | No                    |
| Width (with stand)                                          | 609.9 mm              |
| AC input frequency                                          | 50 Hz                 |
| AC input voltage                                            | 100 V                 |
| Built-in speaker(s)                                         | No                    |
| Anti-glare screen                                           | Yes                   |
| HDMI ports quantity                                         | 1                     |
| Native aspect ratio                                         | 16:9                  |
| Image format                                                | 16:9                  |

|                                                         |                             |
|---------------------------------------------------------|-----------------------------|
| Supported video modes                                   | 1080i                       |
| DisplayPort version                                     | 1.2                         |

| Number of upstream ports                                | 1                           |
| USB upstream port type                                  | USB Type-B                  |
| Display brightness (typical)                            | 300 cd/m2                   |
| USB hub version                                         | 2.0 / 3.2 Gen 1 (3.1 Gen 1) |
| Flicker-free technology                                 | Yes                         |
| Viewable size diagonal                                  | 686 mm                      |
| Viewable size, horizontal                               | 597.89 mm                   |
| Viewable size, vertical                                 | 336.31 mm                   |
| Built-in USB hub                                        | Yes                         |

## Full product description

## DELL P2722H MONITOR 27" IPS FULL HD 1X HDMI, 1X DP, 1X VGA, 2X USB (210-AZYZ)

If you are looking for a powerful and compact monitor, just right for your home office, then DELL has a very good proposal for you in the form of a monitor with a **diagonal of 27 inches** and a **resolution of Full HD 1920 x 1080**. It will be perfect for everyday work, document editing or operating basic graphics programs. However, its huge advantage is, among others, **5 USB ports** and the possibility of free adjustment of the monitor, so you can tailor it to your needs.

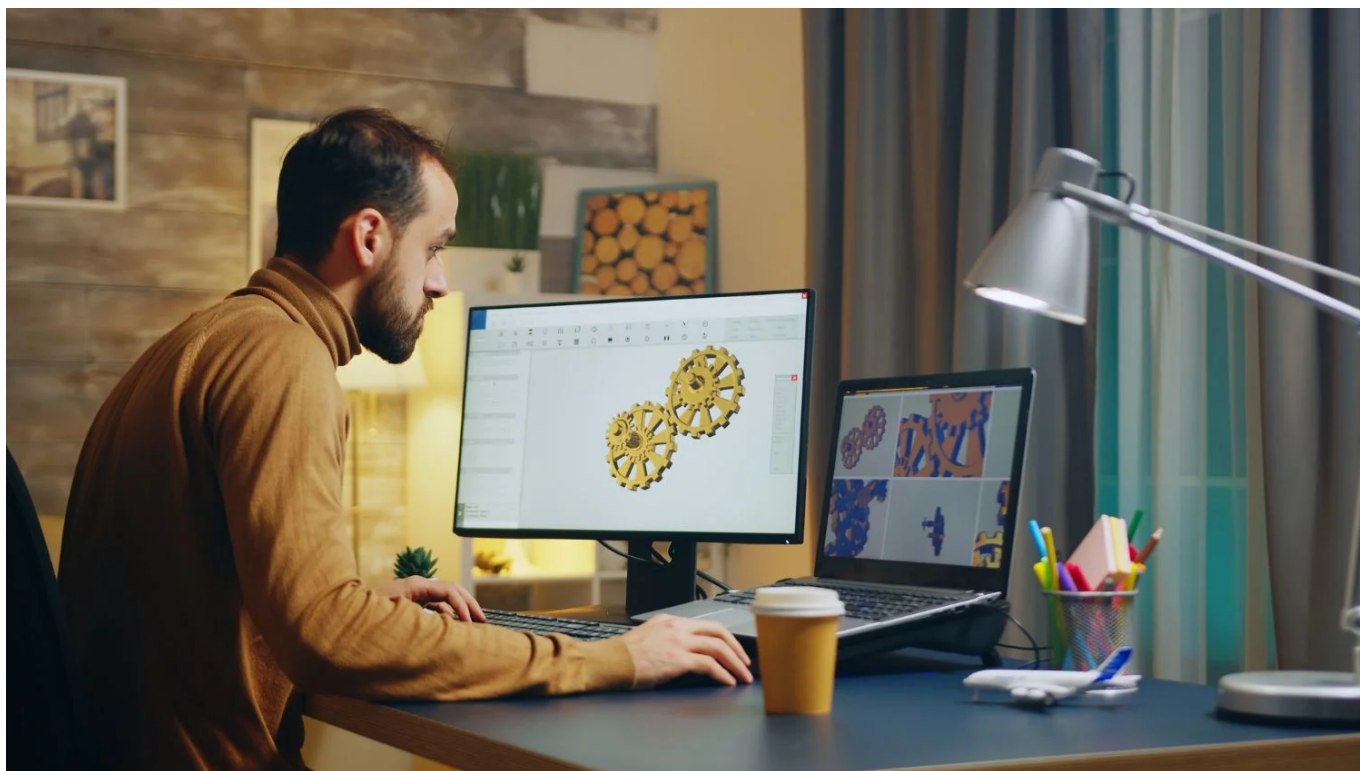

### A deep image in an inconspicuous monitor

**IPS matrix** in the DELL monitor means not only good contrast, but above all, a beautiful image from almost any angle. The vertical and horizontal angle oscillates at **178/178 degrees**. IPS easily provides an image without blurring and with a depth of color. The **thin** bezel gives you the impression of a larger screen. The **small stand** will save you space on your desk. In addition, you will avoid problems with cables. You can safely **hide them in the base of the monitor** and gain space for additional accessories.

## Try the DELL Display Manager

With **DELL Display Manager** software, you'll have a simple way to increase your performance and productivity, whether you're working at home or in the office. No more re-finding and restarting the applications you're working on. Even when unplugged, the monitor remembers your last work layout, so it's a moment away and your screen is ready to go. You can also set one of **38 available screen layout templates** on the monitor. Choose the one that suits you best and get to work.

## Make yourself comfortable at work

Working at a computer puts a lot of strain on your spine, but also on your eyes. DELL took care to provide **anti-reflective coating**, for increased protection against unwanted glare. **ComfortView Plus** filter is another plus for your eyes. It effectively reduces blue light, so you will not feel fatigue so quickly, even with prolonged work in front of the screen. To find the most comfortable position you can also adjust the monitor. You can easily change its **tilt, even by 150 mm**, height or rotation. If you decide to change the way you sit, you can easily adjust it as you like.

## Huge number of possible combinations

In addition to **VGA, HDMI, and DP** inputs, you have **four USB SuperSpeed 5Gb/s ports** to which you can connect the devices you need to work. On the monitor itself, you will find SuperSpeed 5Gb/s USB ports for data retrieval. This makes it easy to share or upload content.
