Price: **2,099.00 zł** gross / 1,706.50 zł net

Manufacturer: DELL

Referention number: DNXXGGHQPLRMNGJ

Product features

Response time	8 ms
Maximum refresh rate	60 Hz
Resolution	2560 pixels
Power consumption (max)	145 W
Package weight	15600 g
Power consumption (typical)	25.1 W
Horizontal scan range	30 kHz
Pixel density	93.24 ppi
Power consumption (off)	0.2 W
Power consumption (standby)	0.2 W
Vertical scan range	56 Hz
Package depth	177 mm
Package height	525 mm
Weight (with stand)	10700 g
Package width	940 mm
Swivel angle range	-30 °
Energy consumption (SDR) per 1000 hours	25 kWh
Display diagonal	31.5 "
Height (with stand)	618.8 mm
Depth (with stand)	230 mm
Width (with stand)	713.4 mm
AC input frequency	50 Hz

AC input voltage	100 V
Power consumption (PowerSave)	20.6 W
Tilt angle range	-5 °
Bezel width (bottom)	17.9 mm
Pivot angle	-90 °
Bezel width (top)	7.5 mm
Bezel width (side)	7.6 mm
Adjustable height (max)	150 mm
Weight (without stand)	6400 g
Height (without stand)	418 mm
Depth (without stand)	55.3 mm
Width (without stand)	713.4 mm
Viewing angle, vertical	178 °
Viewing angle, horizontal	178 °
Response time (fast)	5 ms
Display brightness (typical)	350 cd/m2
Viewable size diagonal	800.98 mm
Viewable size, horizontal	698.112 mm
Viewable size, vertical	392.688 mm

Full product description

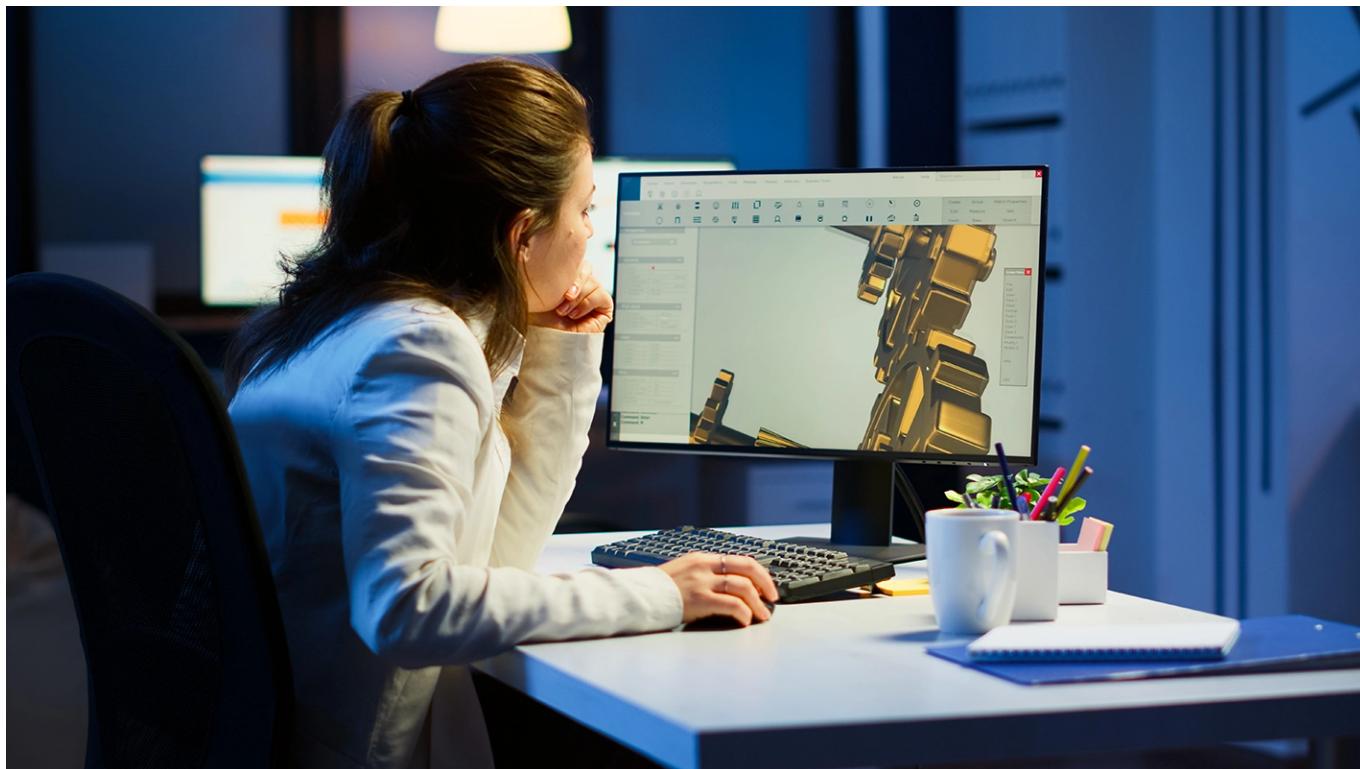

DELL P3221D MONITOR 31.5" IPS WQHD 1X HDMI, 1X DP, 1X USB TYPE C (210-AXNJ)

Efficient **31.5 "** monitor is an ideal solution for people working at the monitor for a long time. It works very well for graphic designers or programmers. **QHD 2560 × 1440** resolution makes the monitor much more efficient than those with FHD resolution. It supports **1.07 billion colors**, which ensures vivid colors and nice contrast when working in graphics-based programs.

Keep your eyes healthy at work

The monitor is equipped with **ComfortView** software. This will save your eyes from excess blue light, fatigue, and reduce dryness. It also features **flicker elimination**, which is extremely beneficial. The IPS matrix will allow you to work from all angles, ensuring image clarity whether it's a document or detailed graphics. **The screen with increased PPI** (pixel count per inch of length) gives you crisp details and most importantly, higher productivity.

Ready to work at any time

The constant power supply of **65W** will keep you working both on the monitor and your notebook fully ready. Thanks to the presence of **Quick Release** sockets, you will be able to mount the monitor in the most convenient place on the panel without any worries. Thanks to the **USB-C** connector, you are able to get your office ready with a single cable, which is very beneficial when you need to change your workspace. DELL has equipped the monitor with a **continuous power feature**. With this mode, we will be able to charge the screen even when we turn off the monitor. This is an extremely useful feature due to the case of system shutdown.

A monitor that gives you everything you need

An easy-to-access joystick lets you quickly adjust contrast or eye-protection mode while you work, and the adjustable tilt angle reduces the risk of assuming a crooked back position. You can attach a sound bar and boost the bass in your music. Can a big monitor get even bigger? Of course it can. With **thin bezels**, the screen will visually gain in size, and the small stand won't clutter your workspace. Plus, you don't have to worry about excess cables. You can hide them in the monitor bracket. To perform tasks efficiently you should find an optimal working position. By **adjusting the monitor height and tilting it up to 150 mm** you will be able to focus on your project in a comfortable position.
