Full product description

DELL WD19S-180W USB-C DOCKING STATION (210-AZBU)

A practical docking station, which is ideal both if you work in the office and at home. Thanks to this inconspicuous box you will connect **many devices in one place**. Not only will you gain access to the necessary equipment, but also increase your productivity.

Optimize your work

The station supports two FHD monitors or one QuadHD monitor without any problem. The data transfer rate is up to 10 Gbps, so you do not have to worry about image noise or clipping. With a large number of ports, you will be able to increase your productivity and shorten the time of work on a given project, and then go to relax. You'll have **HDMI** and **Gigabit Ethernet** ports at your disposal, among others. You will also find **3 DP inputs**, a **USB-C DP port**. There is also a **USB-A** port and a **USB-A port with Power Share functionality**. There is a power input here, of course, but also **USB-C 3.1 Generation 2**.

Compatibility with more than just DELL

Contrary to what you may think, DELL brand docking station works not only with DELL notebooks, but also with **HP** or **Lenovo**. To make sure about compatibility, it is best to check directly on the manufacturer's website. Thanks to the **USB-C** connection, any data you transfer will come and go from you in no time, regardless of which system you're using.
