- Built-in microphone
- 3 built-in games (Square game, push
- Built-in battery: 600mAh lithium-ion
- Ease of use - even for small hands

Have fun and interact with your photography with frames and filters

With this camera, your child can easily take photos and videos, and add **fun frames and filters** to their photos. The camera has a **2-inch screen** that displays clear and vivid images, making it easy for your child to frame photos. Photos are taken at **40 megapixel resolution (interpolated)**.

Built-in microphone and MicroSD memory card slot

The **Denver kids camera** has a **built-in microphone**, so your child can also record sounds and voices to accompany their photos and videos. And with a **microSD card slot**, your child can easily save and store their photos and videos on a **memory card (not included)**.

Built-in immersive games

The camera is also equipped with games that your child can use in his or her free time. These games are designed to be fun and interactive, promoting your child's creativity and imagination.

Capacious and durable battery

The **Denver KCA-1330 kids camera** is powered by a long-lasting **600 mAh battery**, so your child can use it for hours without worrying about running out of power. This means he or she can take photos and record **1080p Full HD (interpolated) videos** during long car trips, camping trips or other outdoor adventures.

The perfect camera for beginner photographers and filmmakers

The Denver Kids Camera is **the perfect device for budding photographers and filmmakers**. With fun games, frames and filters, a microSD card slot, a long-lasting battery and more, your child will love exploring the world around them and capturing their memories in a fun and exciting way.
