- Built-in microphone
- 5 built-in games
- Built-in battery: 400mAh lithium-ion
- Ease of use - even for small hands
- Flip lens for selfie

Flip lens for selfie

The **Denver KCA-1350 camera** for kids also features a **flip-up lens that makes taking selfies a breeze**. With just one quick flip of the lens, your child can switch between taking pictures of the world around them and taking fun selfies with friends and family. The flip-up lens is easy to use and gives your child even more opportunities to capture their favorite moments. Your child will be thrilled to capture their unique view of the world and share it with friends and family.

Have fun and interact with your photography with frames and filters

This camera allows your child to easily snap photos and videos and **attach fun frames** and **filters** to their photos. The 2-inch screen displays clear and stunning images, making it easy for your child to compose photos. Photos are taken at **40 megapixel (interpolated)** resolution .

Built-in microphone and MicroSD memory card slot

The Denver kids camera is equipped with a **microphone**, so your child can capture voices and sounds to accompany pictures and videos. In addition, it has a **microSD card slot** so your child can save and store their photos and clips on a **memory card (not included)**.

Built-in immersive games

The camera is also equipped with **5 interesting games** that your child can enjoy at his or her leisure. These games are designed to be fun and interactive, promoting your child's creativity and imagination.

Capacious and durable battery

The Denver KCA-1350 Kids Camera is powered by a reliable **400 mAh battery**, so your little one can enjoy hours of use without worrying about running out of battery. Therefore, your child can take photos and videos in 1080p Full HD quality (interpolated) during longer family car trips, camping trips or other outdoor events.

The perfect camera for beginner photographers and filmmakers

The **Denver Kids Camera** is the perfect camera for young photographers and filmmakers. It boasts a selfie lens, addictive games, frames, filters, a microSD card slot, a long-lasting battery and other features that will make your little one's exploration of their surroundings and recording of memories more enjoyable.
