Full product description

Denver SWK-110P smartwatch - a gadget your child will love.

Denver's SWK-110P children's smartwatch is the perfect tool for your child to stay connected to you and explore the world around them. This device, designed for children between the ages of 5 and 12, has all the features expected of a smartwatch. This children's gadget, with its attractive design, is sure to become a hit with your child - they will want to carry it wherever they go! This is the perfect gift for any young person who is passionate about technology and curious about the world.

Key features of the Denver SWK-110P Smartwatch.

- Easy-to-read 1.4" color display
- Activity and sleep tracking and free app
- Heart rate and blood pressure sensor
- Multisport function

- Pedometer function: Steps, distance and calorie calculation
- Can be paired with a smartphone via Bluetooth
- Caller ID display and SMS notification
- Fully compatible with iOS and Android

Durable battery and touch screen

The smartwatch is user-friendly and boasts **simple touchscreen controls**, making it ideal for young children. With a long-lasting **200 mAh** battery and a comfortable strap, your child can wear it all day without any problems.

Call and SMS messages

In addition to an abundance of useful features, the **Denver kids smartwatch** also offers **caller display and SMS notification**, so your child will never miss an important call or message. When connected to a smartphone, the smartwatch will show the caller's name or number, so your child will be aware of who is calling. With these features, caregivers can be sure that their offspring is constantly in touch with family members and friends.

Wide set of sensors and sensors

The **Denver Kids Smartwatch** also features **a step counter, heart rate monitor and blood pressure sensor** to motivate your child to stay energetic and healthy. The step counter tracks your child's movements and provides an incentive for them to be more active throughout the day. The heart rate monitor and blood pressure detector track your child's well-being, making it easier for parents to care for their offspring. **These features can help your child develop favorable behavior patterns** and regular exercise while keeping in touch with family and friends.

Application for Android and iOS smartphones

The **Denver SWK-110P children's smartwatch** is designed to be compatible with both **Android and iOS** systems, allowing it to connect seamlessly with a smartphone or tablet. In addition, the watch comes with **a special app** so that you can monitor its performance in real time.
